Replacement keys may be ordered using the code that appears on the face of the lock. Not all parts are covered under warranty. Those parts not covered can be purchased.

HANDLE INSTALLATION

NOTE: Assemble the handles first to make it easier to move the cabinet.

Position the handles over the holes in the cabinet and attach with the M6 x 12 mm hex bolts provided. Tighten securely using a 10 mm socket.

CASTER INSTALLATION

CAUTION: Two or more people are required to lay down or stand up the cabinet. Use the side handles for assistance. **DO NOT** stand in front of or behind the product during this process. Lock drawers before proceeding.

Carefully lay the cabinet on its back, with a soft mat underneath for protection.

Position the two swivel casters on the cabinet bottom, on either the left or right side. Insert four M8 x 25 mm hex bolts through washers, then through each caster and into the bottom of the cabinet. Tighten securely using a 14 mm socket.

Repeat for the two rigid casters on the other side of the cabinet.

CORD WRAP INSTALLATION

Position the cord wrap over the holes in the cabinet. Attach with the M6 x 12 mm Phillips head bolts provided. Tighten securely.

POWER STRIP INSTALLATION

Cut the black strip holding the cord, then pull the white strip to get the plug out of the cabinet and through the grommet. Tighten the grommet.

CHEST AND CABINET CONNECTION

CAUTION: Two or more people may be required to complete this step.

NOTE: It is not required to remove the worktop attached to the cabinet. If you do want remove the worktop, first remove the drawers, then unbolt the worktop.

Place the chest on the cabinet. Attach the connectors to the chest, making sure the hook head snaps in the square hole on the back of the chest. Fasten the M6 x 12 mm hex bolts to the cabinet.

RAISE AND RELEASE DRAWER FRONTS

These units are equipped with raise and release drawer fronts. To open, lift up on the drawer front while pulling towards you. To close, shut the drawer firmly until the latch engages.

If the drawer does not stay closed, the hook may be bent, or it may be rubbing against the drawer slides. To fix this problem, lightly bend the hook until the drawer will engage in the slide.

DRAWER REMOVAL

Pull the drawer out so that it's almost fully extended. Push up on the black release lever on one side, while pushing down on the black release lever on the other side. While holding the levers in these positions, pull the drawer outward until it is released from the drawer slide.

ONE SIDE – PUSH UP

OTHER SIDE – PUSH DOWN

DRAWER REPLACEMENT

Extend the drawer slides from the unit. Insert the brackets on each side of the drawer into the slots in the slides, being careful that they are properly positioned. Once properly inserted, completely close the drawer to set the slides in position.

MAINTENANCE

Periodically clean the drawer fronts, trim, and other surfaces with mild detergent and water.

Lubricate the casters with high quality bearing grease (annually/yearly).

Lubricate the slides (twice a year) with a product like WD40 or other quality lubricant. This is especially important in low temperatures, which can cause the bearing to become stiff.

Grease and oil can be removed with most standard cleaning fluids. For safety, use a nonflammable cleaning fluid.

SAFETY

RISK OF ELECTRIC SHOCK. To reduce the risk of electric shock, use indoors in a dry location only. Do not plug the power strip into another power strip. Not for use for a permanent installation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Close the cover and lock the drawers before moving this product. The drawers could come open and make the product unstable and tip, which may cause personal injury or product damage.

Do not attempt to lift the unit by its side handles using chains, ropes or other lifting devices. The side handle could fail, which may cause personal injury or damage to the product.

DO NOT stand on this product or lean on the drawers or work surface.

WEAR SAFETY GLASSES when removing or repositioning the slides. The tool could slip, which may cause personal injury.

When moving this product, do not pull it. Push the product to prevent personal injury.

USE THE BRAKES when not moving this product. This will prevent the product from rolling, which may cause personal injury or product damage.

BE CAREFUL when opening more than one drawer. The product could become unstable and tip, which may cause personal injury or product damage.

DO NOT mount this product on a truck bed or any other moving object. This may cause personal injury or product damage, and will void the warranty.

Secure this product properly before moving it with a forklift.

DO NOT tow with power equipment. The product could tip, which may cause personal injury or product damage.

Keep the product on level surfaces. The product could become unstable and tip if stored or moved on an uneven surface, which may cause personal injury or product damage.

This product is warranted to be free from defects in materials and workmanship for a period of five (5) years from the date of original purchase.

If this product is defective, email service@qualitycraft.com or call 1-800-459-4409 (Monday–Friday, 8:00 am–4:30 pm, CST). If the product is defective, we will replace the defective part at no cost to you.

Please do not ship your product back to the store or to us unless we send you written instructions for return.

In the event it becomes necessary for your product to be returned, we will notify you how to proceed.

A copy of your original purchase receipt must accompany the returned product.
