

# TRI-FULL

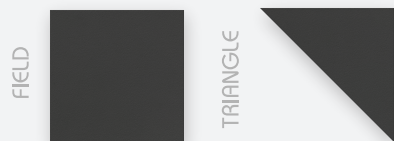

## ULTRA WHITE

## CREAMA LUNA

## ULTRA BLACK

We keep it simple with three colors in 8x8 and three matching triangles which in turn create an unending array of design options. These are through body porcelain and designed for wall and floor applications even in the most discerning environments. Jazz it up with a funky grout if that's your groove. They pass DCOF requirements so we invite you to release your creative side and have some playtime but please don't think of it as a mere "trifle".
