Some Notes:

1. Each accessory size is different, please be careful not to install it incorrectly. Pay special attention to the D and E accessories.
2. Our product is polished smooth. If there are individual uneven areas, please treat them with sandpaper.
3. If you have any questions, please feel free to contact us.

Wooden baby crib Installation and User Manual

Before using this product, please read the manual
carefully. It will tell you the correct operation method and installation steps to avoid damaging the product or injuring your child due to incorrect operation methods.

1. Warning: The side panel of this crib is adjustable. If you leave an unaccompanied child in the bed, always make sure that the flip side panel is in the highest position.

2. Warning: An equipment diagram, a list and diagram of all components and tools required for assembly, as well as an icon for bolts and other required fasteners.

3. Warning: Users should pay attention to the danger of leaving anything inside the crib. It is prohibited to leave anything that may provide a foothold or cause suffocation or strangulation inside the crib.

4. Warning: This crib is a single-layer crib.

5. Warning: All installation accessories should be tightened appropriately, and be careful not to loosen any screws, as a child can cause some parts of their body or clothing (such as strings, collars, ribbons for dolls, etc.) to become trapped, which may pose a risk of strangulation.

6. Warning: Mattress thickness selection: When selecting the mattress used in this bed, the height (from the surface of the mattress to the upper side of the bed frame) should be at least 200 mm. The maximum height or thickness of the mattress should not be higher than the marking line on the inner side of the bed (including the maximum height of thickness of the mattress).

7. Warning: It is prohibited to ignite fire sources or other strong heat sources (such as electric heaters, gas heaters, etc.) near the crib, as these fire sources or strong heat sources are very dangerous.

8. Warning: When using this product, the caregiver must not leave to avoid danger.

9. Warning: After installation is completed, please dispose of the installation bag and tie straps in a timely manner. Do not leave them in the crib to prevent injury or death to the baby.

10. Warning: It needs to be used on flat ground.

11. Warning: Failure to follow these warning words and instructions may result in serious injury or death.

Maintenance knowledge

1. To ensure that your baby is not accidentally injured, please regularly check and protect the product.
2. When disassembling, please carefully follow the user manual to avoid unnecessary damage.
3. Various components must be checked for integrity and proper placement during installation and use.
4. Avoid prolonged use or storage in humid and high-temperature environments.
5. The assembled parts should be checked regularly for correct tightening, and attention should be paid to no loose screws, as they may catch the baby.

Quality assurance

1. Providing high-quality after-sales service to every customer is our long-term principle. If you cause damage to product components during use, please contact our after-sales service department.
2. When there is a slight difference between the actual product and the picture, please refer to the actual product.

DeclarationThis product is a paint free and environmentally friendly handicraft. It is normal for customers to experience small cracks during use. Because this product has not undergone paint sealing treatment, a small amount of cracks may appear under the influence of air humidity, which does not affect product quality. This product is made of imported New Zealand pine wood. During the production process, the first step is high-temperature sterilization treatment. Please rest assured to use it. This product is a paint-free and environmentally friendly handicraft. It is normal for customers to experience small cracks during use.
