TITLE

145-Gallon Aquarium Featuring High-Quality Tempered and Ultra-Clear Glass
(Comprehensive Fish Tank Setup) in White with Silver Trims

Standard Price: \$3,199

Key Product Features:

1. The fish tank is constructed from premium low-iron tempered ultra-white transparent glass, designed to endure everyday impacts and damage, ensuring exceptional durability. It is resistant to scratches, fingerprints, and both acidic and alkaline substances. The glass boasts a light transmittance of over 91.5%, with a thickness of 0.4 inches.
2. The fish tank's frame is entirely made of metal, providing robust resistance against saltwater corrosion. It is engineered to maintain its shape and color over time. It includes a professional-grade LED tri-color lighting system, suitable for nurturing marine life, corals, Arowanas, aquatic plants, and decorative water features, thereby enhancing the elegance of any home or office environment.

3. The product package includes a cabinet, a 45W water pump with a flow rate of 1200 GPH, and a filtration system complete with filter media. The aluminum frame measures 47.2 inches in length, 21.7 inches in width, and 29.5 inches in height. This frame is designed to withstand tension and torque deformation from heavy loads, is corrosion-resistant, and is easy to clean and maintain, ensuring prolonged water clarity.

4. The internal dimensions of the filtration system sink are 35 inches in length, 16.2 inches in width, and 15 inches in height, with a water capacity of 22 gallons. The glass of the fish tank is bonded using a German-engineered ultra-durable biophilic silica gel, which offers resistance to saltwater erosion for up to 20 years.

5. Featuring the most contemporary design of 2021, the fish tank is adorned with a White Silver Trim, where every detail exemplifies modern design principles. The aquatic plants are clearly visible, and the fish swim gracefully, providing an immersive experience.

Product Description:

Our display stand is constructed from elegant aluminum and glass, featuring a cabinet for storage purposes. The fish tank is covered by a warranty of three years. The electrical components are warranted for one year, and lifetime service for spare parts is provided.

Specifications:

1. Tank dimensions: 47.2 (L) x 21.7 (W) x 31.5(H) inches.
Water Actual Capacity: 123Gallons
2. Thickness of tank glass :0.4 in
3. Stand dimensions: 47.2(L) x 21.7(W) x 29.5(H). inches
4. Inner size of filtration system sink :35 (L) x 16.2 (W) x 15 (H), inches
Water Actual Capacity: 22 Gallons.
5. Water Total Actual Capacity: 145 Gallons
6. Water pump Voltage: 110-120V (60 Hz AC) 45W 1200 GPH

7. LED Lighting system
8. Product weight :352lb
