

# Assembly Instruction Sheet

**Tools Required:** Flathead screwdriver, Phillips screwdriver, pliers, wire cutters, wire strippers, electrical tape, safety glasses.

**Light Source:** (5) Medium Base 60W Vintage Bulbs (supplied), 100W Maximum.

**Estimated Assembly Time:** 30-45 minutes

**Preparation:** Identify and inspect all parts before beginning installation. Check package content list and diagrams below to be sure all parts are present. If any parts are missing or damaged, do not attempt to assemble, install, or operate the fixture. Contact customer service for replacement parts.

## ⚠ Warnings and Cautions

Turn off electricity at circuit breaker or main fuse box before installation. Consult a licensed electrician if in doubt.

These instructions are provided for your safety. It is very important you read them completely before installing the fixture. We strongly recommend that a licensed, professional electrician perform the installation.

Disconnect fixture from power source before replacing bulbs. Make sure bulbs are given sufficient time to cool before removal.

## Package Contents

## Hardware Contents

## STEP 1 – Install the Crossbar Assembly to Outlet Box and Adjust the length of the Nipple

- Attach the Crossbar Assembly (AA) to the Outlet Box with the head of the Green Ground Screw facing you. Secure it with Outlet Box Screws (not included), tighten until snug.
- Adjust the hex nut and lock washer underside of the crossbar to the middle of the nipple.
- Remove the knob from the nipple. Place the Ceiling Canopy (CC) over the nipple against the ceiling to determine the correct position

Figure 1

## (Step 1 Continued)

of the nipple. Thread the knob onto the nipple. Adjust the nipple to allow the Ceiling Canopy (CC) to rest against the ceiling when held in place by the knob.

- Remove the knob and the Ceiling Canopy (CC). Tighten the lock washer and the hex nut against the crossbar to secure in place.

## STEP 2 – Assemble Rods, Fixture Loops and Ceiling Canopy

- Determine the Rods (C/D) to be assembled to the Fixture Body (B) according to your hanging height.
- Pass the supply wires and ground wire through the chosen rods (C/D) and one Fixture Loop (A). Thread the Fixture Body (B), the chosen Rods (C/D) and the Fixture Loops (A) together. Hand tighten until snug.
- Pass the supply wires and ground wire through the Ceiling Canopy (CC). Attach the Fixture Loops (A) to Ceiling Loops underside of the Ceiling Canopy (CC) with Quick Links (BB).

Suggested rods for Ceiling height :

8' ceiling : use (1) 6" rod and (1) 12" rod

9' ceiling : use (1) 6" rod and (2) 12" rods

10' ceiling: use (2) 6" rods and (2) 12" rods

Figure 2

## STEP 3 - Attach the Lanyard

- The purpose of the lanyard is to provide a means to support the fixture hands free from the junction box while connecting the electrical wires.
- Turn the Button Stop so it may be inserted into a Crossbar slot. Make sure the Button Stop is completely inside the Crossbar. Slowly

### (Step 3 Continued)

release the fixture to make sure it is supported by the Button Stop. Proceed to the wiring steps in the next step. Once you are complete with the wiring, the Lanyard will push into the junction box when the fixture is placed for final mounting.

FINISH: BRUSHED NICKEL

### STEP 4 - Making the Wire Connections

A. Use standard wire connectors (not included) to make all wire connections. Twist connectors until wires are tightly joined together. Wrap each connection with approved electrical tape and carefully stuff all the connected wires into outlet box.

Note: If the electrical wire is going to be cut shorter than provided you will need to identify the "L" line wire and the "N" neutral wire before you cut the excess wire off. One is labeled N and the other labeled L. To do this separate the "L" line wire and the "N" neutral wire as far as you need to. Re-label the wire near where you want to make the cut. Be sure to mark the wire on the side of the fixture and not on the excess wire being cut and removed.

Figure 4

### STEP 5 - Install Ceiling Canopy to Crossbar

A. Attach the Ceiling Canopy (CC) over the end of the nipple and secure with the knob. Hand tighten until snug.

Figure 5

### STEP 6 - Install Bulbs

A. Insert bulbs (E) onto sockets and screw snugly into place.

Your fixture is now assembled and ready to use. Enjoy!
