INSTALLATION

- 4 wall plugs in the ceiling
- 1 connection to a 220V electricity supply

The Foxydry Air ceiling-mounted clothes drying rack can be installed in countless locations, including in almost any room, above a bath tub, in a laundry room, under a portico and on a terrace. It can be put alongside a light or used instead of one because it is fitted with LEDs that offer both savings and outstanding illumination. Foxydry Air can also be installed on a wall using special brackets that can be supplied on request or on a sloping ceiling using special cables that can be supplied on request.

OPERATION

With a remote control.
