The goods

IMPORTANT

1. Do not tighten bolts / screws completely until all bolts / screws are lined up and inserted into holes.
2. Do not over-tighten screws and bolts to avoid stripping.
3. Please use hand tools to assemble this product.

Step 1

Lay down the packaging or use your carpet as a protective work surface and let's get started!

First, insert the Wooden Dowels (3) into the Panel (Front & Back) (C). Then, place the Shelf (Top & Middle) (A) over the Wooden Dowels (3).

Next, slide the Spring Washers (5) and the Flat Washers (6) onto the Bolts (4).

Finally, use these parts and the Allen Key (7) to secure the Shelf (Top & Middle) (A) in place.

Do NOT over-tighten hardware.
Tighten only to 75% for now.

Step 2

Continue by inserting three additional Wooden Dowels (3) into the Panel (Front & Back) (C). Then, place the Shelf (Top & Middle) (A) over the Wooden Dowels (3).

Next, slide the Spring Washers (5) and Flat Washers (6) onto the Bolts (4).

Finally, use these parts and the Allen Key (7) to secure the Shelf (Top & Middle) (A) in place.

Do NOT over-tighten hardware.
Tighten only to 75% for now.

Step 3

Repeat this step for the Shelf (Bottom) (B). Insert three additional Wooden Dowels (3) into the Panel (Front & Back) (C), then place the Shelf (Bottom) (B) over the Wooden Dowels (3).

Next, slide the Spring Washers (5) and Flat Washers (6) onto the Bolts (4).

Finally, use these parts and the Allen Key (7) to secure the Shelf (Bottom) (B) in place.

Do NOT over-tighten hardware.
Tighten only to 75% for now.

Step 4

Insert the Wooden Dowels (3) into the ends of the Shelf (Top & Middle) (A) and the Shelf (Bottom) (B). Then, place the Panel (Front & Back) (C) over the Wooden Dowels (3).

3

x9pcs

Step 5

Grab a friend and carefully flip the storage cabinet upside down.

Next, slide the Spring Washers (5) and Flat Washers (6) onto the Bolts (4).

Finally, use these parts and the Allen Key (7) to secure the Panel (Front & Back) (C) in place.

Do NOT over-tighten hardware.
Tighten only to 75% for now.

Step 6

These shelves can be adjusted slightly up and down to help align them with the horizontal sections on the Panel (Front & Back) (C). Tighten the bolts for the Shelf (Middle) and Shelf (Bottom) fully.

Helpful Tip:

The shelf can be adjusted up and down to align with the Panel (Front & Back).

How to use cam locks

Did you know?

Cam locks are used to join two panels together, usually the edge of one to the flat side of another.

First, your cam bolt (or cam pin) will need to be properly inserted into the flat side of the board.

Important Note: Only tighten the cam bolt until it is secure. Do not over-tighten.

Next, you will fit the proper hole on the edge of the associated joining panel over the cam bolt.

Important Note: When installed properly, the head of the cam bolt will be visible through the larger hole on the side of the joining panel.

Next, you will notice the cam lock has a “C” shaped back. Commonly, an arrow on the front of the cam lock points in the same direction as the open section on back.

Using these as your cue, insert the cam lock into the large hole so the opening of the “C” fits over the head of the cam bolt.

Using a screwdriver, you will turn the cam lock until it stops, usually at 90° or 180°. You will feel the panels pulling closer until they are secured.

Important Note: Only turn the cam lock until the panels are fully engaged & feel secure. Turning too far may lead to hardware failure.

Still having issues?

If a cam lock seems to be spinning in place or is not “catching” or pulling the panels together as expected, first remove the cam lock & try again while making sure that everything is properly positioned & oriented.

If you are still having issues getting things working as expected, first remove the cam lock, then unscrew the cam bolt slightly (less than 1 complete turn) to see if that helps with the alignment of the cam lock & bolt.

Step 7

Let's get started on the base!

First, screw the Cam Bolts (1) into the Base Panel (Front & Back) (D).

Next, insert the Wooden Dowels (3) into the ends of the Base Panel (Side) (E).

Then, place the Base Panel (Front & Back) (D) over the Wooden Dowels (3)

Make sure to line things up as shown below.

Finally, use the Cam Locks(2) to secure the Base Panel (Front & Back) (D) to the Base Panel (Side) (E).

Step 8

Insert the Wooden Dowels (3) into the bottom of the storage cabinet. Then, place the Base assembled from Step 7 over the Wooden Dowels (3)

Finally, use the Screws (8) to secure the Base in place.

3

8

x4pcs

x8pcs

Step 9

Grab a friend and carefully flip the storage cabinet upright.
Adjust the Top Panel up and down to align with the Panel
(Front & Back) (C).
Finally, tighten all the bolts fully.

x8

Helpful Tip:

The shelf can be adjusted up and down to align with the Panel (Front & Back).

Step 10

Now go ahead and check that your Ford Storage Cabinet is level. If it's looking a little uneven, adjust the levelers on the feet until it's nice and level.

Wobbly or uneven?
Adjust the feet until stable

Replacement

You

We really don't want you to go through the hassle of re-packaging your item
and sending it back, because let's be honest...nobody has time for that.

Safety first, fun later

We want your product to last as long as possible, so we recommend that you tighten the screws 2 weeks after assembly and for added safety, check the tightness of all screws every 2 months.

For proper care and treatment, please check our website at NathanJames.com/products

Safe use of this product starts with you.

Use this product responsibly with the primary concern for your safety. Follow assembly instructions carefully and inspect product upon receipt and each use.

Nathan James and its parent companies cannot be held legally responsible for any injuries or death resulting from failure to follow instructions or improper use of this product.

Do not modify the structure of this product in any way.

Our products have been tested to meet specific safety measures as they were originally intended to be sold. Any modifications will present the risk of creating significant safety issues which NJ will not be responsible for.

Proper use

DO NOT	use for commercial purposes
DO NOT	climb on storage unit
DO NOT	exceed weight limit
DO NOT	leave spilled liquid on storage unit
DO NOT	use if storage unit is damaged or broken
DO NOT	make temporary repairs
DO NOT	use outdoors

We are only in business if you're happy
