a	Iron sheet		1

- \* Required screwdriver & mallet, not included.
- \* Before discarding packing materials, please check to make sure that all parts and hardware is present.
- \* Two people needed for assembly.
- \* Please follow the instructions closely; Do not over-tighten screws or bolts unless specified.
- \* After a few days from initial assembly, the product may adjust to the environment. Please retighten the hardware.

## Guideline For Assembling of Cam Lock (A & B)

Screw camlock bolt (A) to wood part.

Do not assemble camlock (B) unless instructed.

To assemble camlock (B), ensure long side of the + is facing the bolt (A) before inserting into hole.

1) Drill a 1/8" hole into the wall at the marked position.

2) Insert Plastic anchor (Part V) into the hole.

3) Place Washer (Part X) over Mounting screw (Part W), then drive the screw through Safety wall strap (Part U) and into the anchor. Tighten until the strap is firmly attached to the wall. Repeat for the second strap.

Turn the adjustable feet (located at the base) clockwise/counterclockwise to level the cabinet; ensure all feet contact the floor to prevent wobbling.
