

# Recliner Assembly Instruction

To ensure the easiest of assembly, follow all steps in order. Two people are required to assemble this item.

<p>Recliner Base 1Pc</p> 	<p>Recliner Ears 2Pcs</p> 	<p>Middle</p> 
--	---	---

Make sure the recliner is opened in the designated area that it will be used in. When opening do not have any sharp objects on the floor and double check all items are there. There will be two ear pieces stored in the area between the metal brackets. When placing the back cushions, push down from the top until you hear a click sound from each side. Note: The left and right cushions will have metal brackets on the outside and none on the inside. If the metal brackets do not align with the base, then it is not in the right place.

You Recliner is now ready! Easily use the recliner by pulling on the latch. Put the recliner back in by slowly pushing the bottom part with your feet until you hear a click! Enjoy!
