

# Hey! Play! Hookey Ring Toss Game

**Contents:** Each set comes with one hookey board, thirteen hooks and six silicon based rings in traditional red and black.

**Set-up:** Hang the board about 5' off the ground.

**Object:** Be the first to score exactly 101 points by tossing the rings onto the hooks. Points that take you over 101 are deducted, not added to the score, until you reach exactly 101. Another variety is to play 'round the clock' in which players race to hook all 13 numbers in numerical order.

**Game Play:** In a standard hookey game, each player stands about 5 1/2 ' from the board and takes turns throwing all six rings of one color, one at a time. Add the total points from your rings on the board to get your score. If you're lucky enough to hook all six rings in a single turn, then you go again. The first player to reach a score of 101 points wins the match. But be careful, you must reach exactly 101 points without going over. If you go over, extra points are deducted from your score. So if you have 99 points and you hook your ring on 4, your total is then at 103, those extra two points (over 101) are deducted from your score leaving you with 97.
