installation instructions

Take a deep breath going in.
This is easy even if you are not
used to tools. Just follow these
steps to the T, and the
outcome will be
worth it!

step 1:

Measure the distance between the two keyholes using a measuring tool as per your requirement. The mirror can be hung both vertically and horizontally.

step 2:

Place the measuring tool against the wall and make two marks where you want to mount the mirror.

step 3:

Drill holes at the points you just marked.

step 4:

Using a hammer, insert wall plugs (C) inside the holes.

step 5:

Fix the screws (B) into the wall plugs. Use a screwdriver to make sure that they are secure.

step 6:

Place the keyhole-slots over the screws.

Voila! Your mirror is now installed and secure!
