WARNING (To reduce the risk of fire, electric shock, or personal injury):

1. Please read the instruction carefully and save it as you may need it at a later time.
2. Before you start, **NEVER** attempt any work without shutting off the electricity until the work is done.
   - » Do not turn on the power supply until the installation is finished.

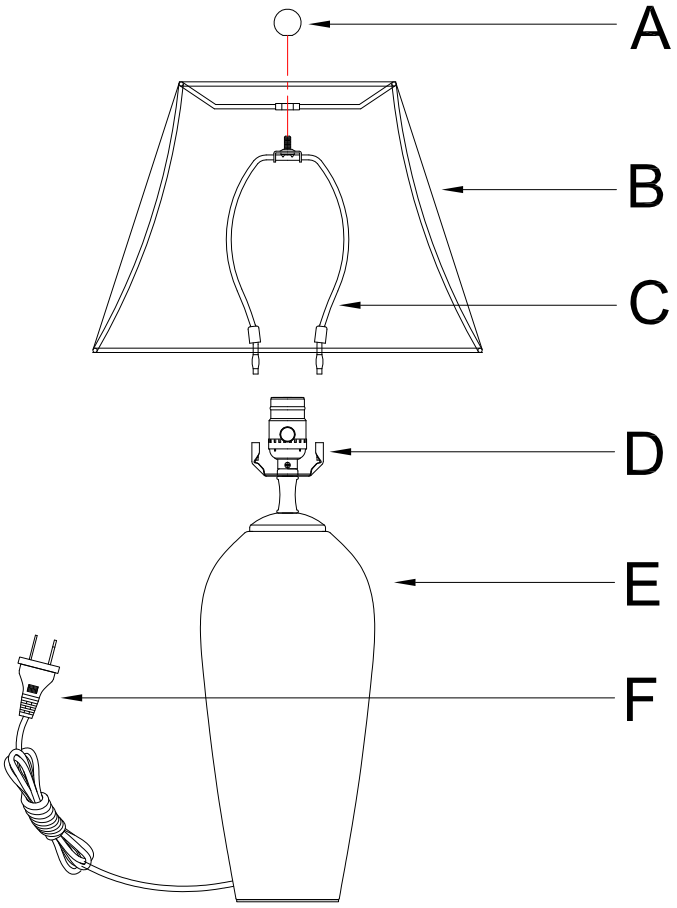

1. Installation place should be clean and dry.
2. Make sure that the installation place can stand the weight of the lamp before installation.
3. Make sure the voltage you are using is **120V**. The maximum wattage is **Type A, Max 100W** per bulb.
4. Keep the lamp away from acidic and alkaline substances in case of damaging the surface of the lamp.
5. When replacing bulbs, you should turn off or unplug the lamp and you must wait until it is cool as bulbs get hot quickly.
6. The safety instructions appearing in this manual are not meant to cover all possible conditions that may occur. It must be understood that common sense, caution and care must be used with any electrical products.

IMAGE FOR FINISHED PRODUCT:
