CHANDELIER

TOOLS REQUIRED

PREPARATION

Before beginning assembly of product, make sure all parts are present. Compare parts with package contents list and hardware contents list. If any part is missing or damaged, do not attempt to assemble the product. When the lamp is not installed finish, please don't throw away the package, so as not to leave the parts in the package.

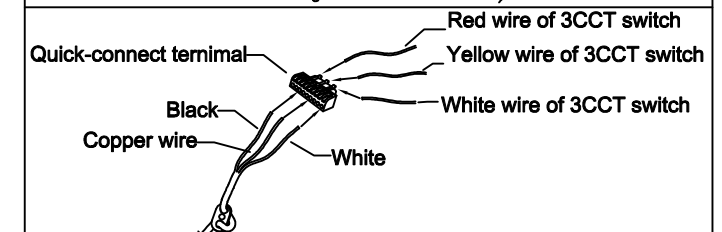

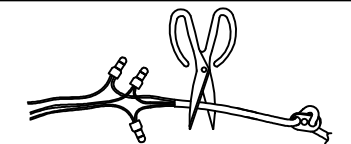

PART LIST AND HARDWARE LIST

PIECE	DESCRIPTION
A	Mounting bracket
C	Outlet box screw
D	Expansion screws

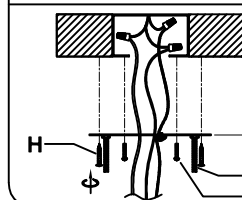

PIECE	DESCRIPTION
E	Canopy
F	Knurled nut
G	Hex nut
H	Fixture body

INSTALLATION

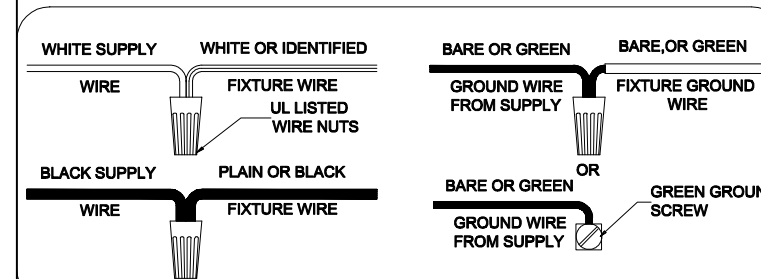

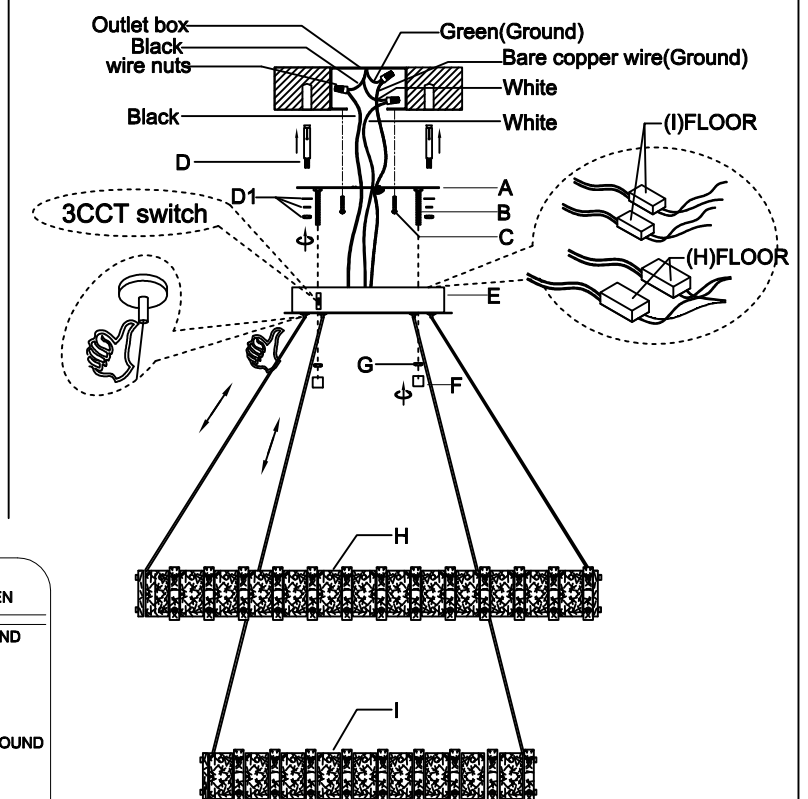

1. Adjust the wire to the desired length.
2. Determine the position for the mounting plate (M) and mark the location holes. Drill a hole at each marked position, then hammer the expansion screw (D) into the hole.
3. Attach the mounting bracket (A) to the junction box with outlet box screw (C), then lock the nut (D 1) onto the expansion screw (D).
4. Attach the supply circuit ground wire (green or bare copper wire) to the fixture ground wire, black to (black) and white to (white).
5. Attach the canopy (E) to mounting bracket (A) with Hex nut (H), then lock the Knurled nut (F).

Note: Please cut the main line by using scissors while the main wire is too long and then connect the wires with Quick-connect terminal which is packed into the hardware bag.

Note: Please fix the mounting bracket with wood screw (H) while the ceiling is gypsum board or wood, please fix the mounting bracket with expansion screws (D) while the ceiling is cement.

Thank you for purchasing a SDQ lighting product !
