SURFACE-MOUNTED INSTALLATION

*** No need to take off the door(s) before installing the cabinets.**

1 Level and mark the cabinet's location on the wall.

2 Mark the position of the top mounting bar and punch.

Top mounting bar must be attached to furring strip/channel or wall studs

3 Using a drill, make holes on solid wall, and fill with supplied plugs and screws into hanging bar holes tightly.

Attach Top Mounting Bar to wall.

4 Please turn off all the power before the mirror cabinet wires connection.

Power Off

SURFACE-MOUNTED INSTALLATION

5 With assistance, to rest the cabinet on the mounting bar and hold in place.

6 Install the bottom wall bracket to secure the mirror cabinet to the wall. Screw B is located on the bottom of the cabinet, while Screw A is positioned on the wall.

7 Wiring the power line.

8 Hang up the mirror cabinet stable then turn on the power.

 **WARNING:** Turn off the power before wire connection!

FUNCTIONAL DIAGRAM

*** This mirror cabinet can only be installed by wall mounting.**

MIRROR DOOR INSTALLATION

Door Adjustment / Door Removal

OPTIONAL DOOR ADJUSTMENT

Doors may need to be adjusted after the initial shipping of the cabinet. The cabinet doors have a three-way adjustment feature. Height, side-to side, level and depth can be adjusted. With the hinge slightly closed you can access the middle screw for up/down adjustment. With the hinge fully extended you can access the front and back screws. These screws will move the door side to side and in and out.

TOUCH BUTTON AND OUTLET CHARGER

How to use Defogger Switch and Dimmer Switch :

Right Touch Sensor

Short touch to turn ON/OFF the defogger.

Middle Touch Sensor

“Switch” sign

Short touch to ON/OFF lighting.

Light brightness 5%-100% control by holding

Release the button when the light reaches the desired brightness.

Left Touch Sensor

Short touch to get the light temperature 6000K, 4000K and 3000K.

Long touch to adjust the light temperature from 6000K-3000K.

Release the button when the light reaches the desired color.

***Suggestion:** The mirror is equipped with memory function to preserve the previous brightness/color settings.

How to use Outlet and USB Charger :

This lighted medicine cabinet contains outlet and USB chargers.

1. Outlet Charger is 15Amp 110V AC to power shavers, or toothbrushes, but do not use it for Hair dryer, it may blow a circuit.
2. USB ports provide 4.2Amp 5V DC for charging purpose only, not for data transfer.

***Suggestion:** Turn off the mirror power supply if you don't use it for a long time.

*The design of touch switch may vary, and subject to change without prior notice.

USE AND MAINTENANCE

WARNINGS:

- 1.Please do not use if you found the mirror cabinet has been broken.
- 2.Never put any sharp or heavy material on the mirror surface, other wise the glass mirror will be broken and body injury accidents may occur .
- 3.Turn off the power switch in storm lightning weather to avoid electric parts damage.
