

PALETTI

The modular way to lounge.

Here's the story

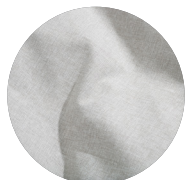

Paletti's secret is in its modularity. Offering lots of place, this lounge concept gives a modular twist to enjoying the good life with more people than you might expect.

Modular by design which therefore offers literally endless possibilities. Paletti's design is inspired by transport pallets, and like these Paletti's bases are also stackable and easy to store when fall is around the corner. Use them to create a made-to-measure relaxation realm in no time. Mix it up, invite everyone round, and relax.

Put together your own set exactly as you want it using the red connectors. Create a leisure landscape with and without backrests and corner units – you can even convert a Paletti into a coffee table with the aluminum inlay. The cushions are filled with high-quality memory foam for long-lasting comfort. The covers are available in different colors, all made of high quality fabric. Thanks to that, Paletti is water and dirt repellent, stain-resistant and UV-resistant.

Nice to know!

- For indoor and outdoor use.
- Base available in anthracite.
- Fabric available in mist, rock grey, sahara, stripe ocean blue and thunder grey.
- Colors table top available in anthracite, dark ocean, desert, light grey and light taupe.
- Material base: polypropylene.
