Small Tabletop\*1

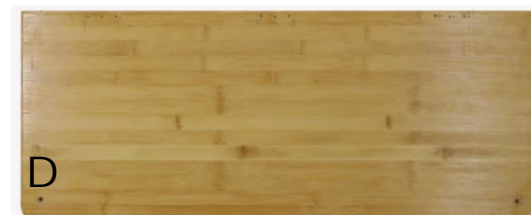

E

Front and Back Panels\*2

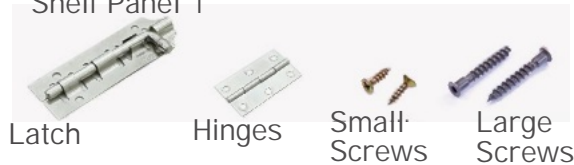

F

Shelf Panel\*1

D

Large Tabletop\*1

Latch

Hinges

Small  
Screws

Large  
Screws

Assembly Tool

Tips: When tightening the screws, do not overtighten.  
Just secure them snugly to avoid cracking the table.

## Assembly Instructions

1. Install the shelf panel (F) and the front and back panels (E) using large screws.

2. Take out the table legs (B) and install them using large screws.

3. Continue to install the other table leg (B) using large screws.

4. Take out the hinges and install it using small screws.

5. Take out the support frame (A) and latch then install it using small screws.

6. Secure the support frame (A) to the table legs (B) with small screws (ensure the bottom is aligned before tightening the screws).

7. Install the other support frame (A) in the same way.

8. Attach the large and small tabletops (C&D) with hinges using small screws. (First, secure the side hinges, ensuring the tabletops are aligned and level. Then, install the middle hinges.)

9. Finally, fix the large and small tabletops (C&D) to the table legs (B) using large screws.
