Installation

5 Hang doors

(x1)

ST4.2x25

Hang doors: Make sure Track pivot lock is in the unlocked position.

(A) Fold doors and insert Door hanger plate into track groove. Place Top pivot into receptor of Track pivot lock.

(B) When firmly seated, slide tab lock toward pin. Door now should be hanging from Top pivot.

(C) Depress Bottom pivot bracket socket arm and insert Bottom pivot. If no vertical adjust is needed, secure Bottom pivot bracket with other 2 screws. Use wrench for horizontal adjustment of Top pivot lock and Bottom pivot bracket.

A

6 Mount knob

ST4.2x32

Install knob on the door with ST4.2x32 screw.

Installation

7 Adjust Track stop

Adjust Track stop Close doors, slide Track stop until it touches Door hanger plate. Open doors, move Track stop 1/8" (3mm) closer to Door hanger plate and tighten, Doors should "snap" shut yet open easily by a slight pull on the knob.

8 Fascia Install

By removing the tape backing and pressing against the track, attach the fascia to the upper corner of the track. Cut the fascia if necessary.
