

Ladder Assembly Instruction

Refer to PARTS LIST for identification of parts.

WARNING: Please use extreme caution not to pinch your fingers. Ladders lets young children climb onto trampoline. Trampolines not for children under 6 years old. Do not use ladder if children under six might be nearby. Remove the ladder when trampoline is not in use.

Remove all components from the box and lay each matching component together.

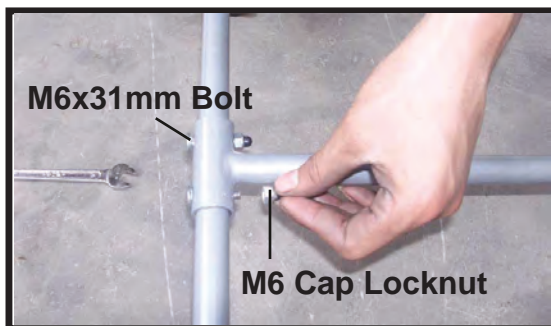

Tools Required: Adjustable Wrench.

- 1 Lay the two leg frames on a clear area

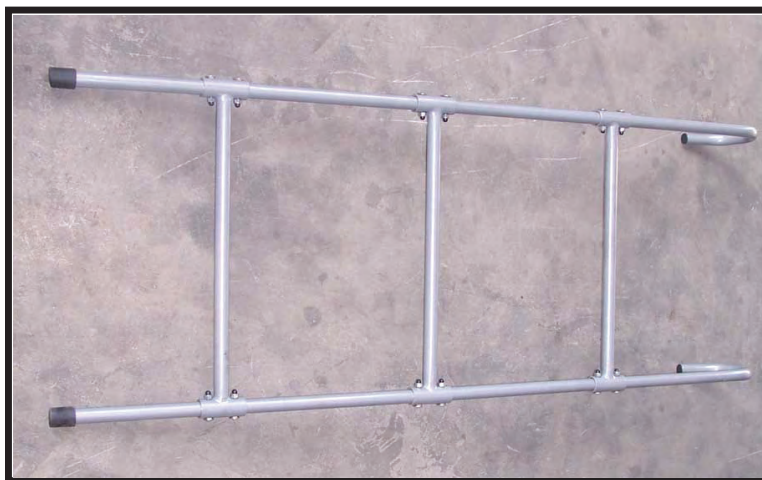

- 2 Insert the cross bar onto the leg frames and line up with bolt holes. Repeat for next two (2) cross bars.

- 3 Secure the cross bars to the legs by the M6x31mm Bolts and M6 Cap Locknut.

- 4 With curled top area of ladder facing down. Insert the two end caps with the slant side of the end cap facing down as shown.

- 5 Assure that all bolts and end caps are tight and secure.
