

INSTALLATION GUIDE

Accessories List

Screw gasket

Screw

Hexagonal wrench

Step 1

Locate the corresponding positions on the tabletop for each of the three table legs, as illustrated in Image 1, 2, and 3. This involves identifying the pre-drilled holes on the bottom of the tabletop that match up with legs A, B, and C, respectively.

Step 2

Screw the bolts into the corresponding pre-drilled holes, and then repeat the process for the other holes in sequence. The installation will be completed once all holes are properly secured.
