How to Install

1. Confirm the installation location and mark it with a marker (not included).
2. Remove the fixed base of the product.
3. Mark the drilling positions with a marker (not included).
4. Drill holes at the perforation positions with an electric drill (not included).
5. Knock in the expansion screws and trim the protruding silicone head (all not included).
6. Align the holes and tighten the screws of the fixed base.
7. Match the base with the fixed base and tighten the screws to fix the product.

Application

It is suitable for entryways, bedrooms, cloakrooms, hallways, dressing rooms, etc. It can hold coats, hats, scarves, bags, umbrellas, belts, robes, and other accessories.

Notes

1. Please check the product size carefully before purchasing.
2. Please note that clothing and other items are not included.
3. Please allow the slight color difference caused by the shooting light and the 1-3 cm error due to manual measurement, and make sure you do not mind before ordering.
