A	RAF Backrest		1
B	RAF Seat		1

ASSEMBLY INSTRUCTIONS

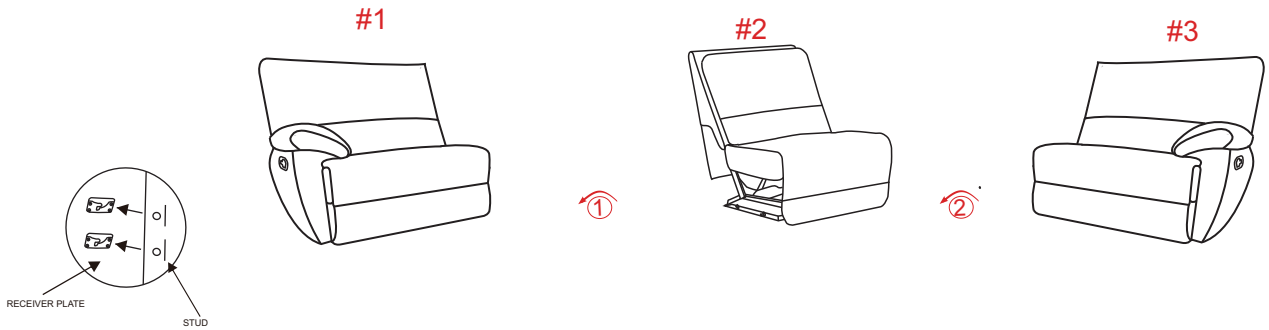

STEP 1:

Install the LAF Backrest(A) into the LAF Seat (B) by positioning the female metal receiver brackets over the male metal posts.
Ensure that female metal receiver brackets on each side of the backrest are positioned over the seat metal posts.
Push down the female brackets over male posts simultaneously until each side is locked into place an audile “click” is heard.

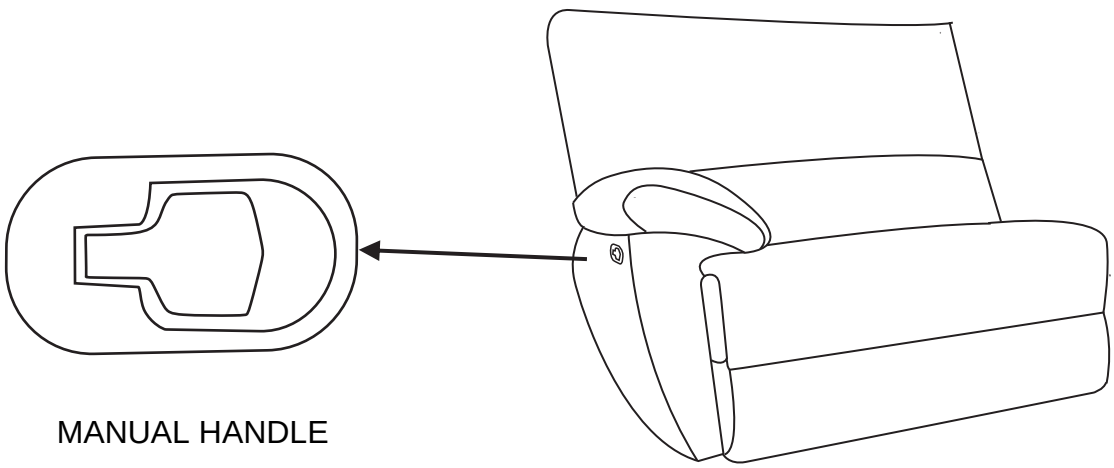

STEP 2:

Begin connection by placing the left Arm Facing power recliner (1) in desired location in room. Then start connection by placing # 2 into piece # 1. Continue connecting piece # 3 following the same method described above.

WARNINGS

*Clearance to the wall 30 cm

*Avoid placing unit in areas where unit can be exposed to direct sunlight other powerful light sources,
*Keep unit at least 24" from all heat sources.

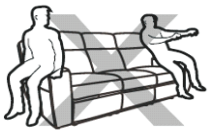

as fading or discoloration may occur.

*Do not reach under seat when mechanism is operating or serious injury may occur.
*Reclining mechanism should only be operated while seated properly.

Do not sit on arms or backrest
Do not jump or roughhouse on furniture

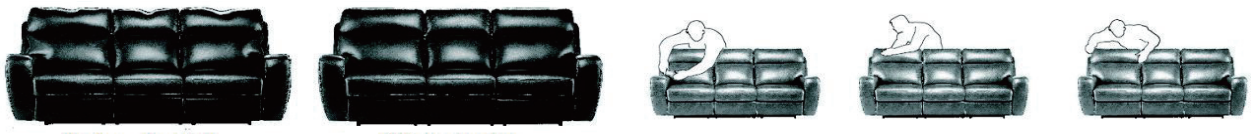

*If unit must be moved, do not drag. Unit must be lifted in order to be moved.

*Do not continuously operate mechanism for more than one minute or unit may go into protection mode by shutting down to prevent overheating.
*Unplug unit from power source prior to cleaning mechanism.
*Do not allow electrical components to come into contact with any liquids.

CARE AND CLEANING

*Upholstered furniture is packaged tightly to protect it during transit. This packaging can sometimes cause creases or misshaped cushions when the furniture comes out of the packaging. These issues will correct themselves over time as the fibers of the cushions are exposed to air.However, shaping the cushions with your hands can alleviate the creases and compressed fibers more quickly.

Before shaping After shaping

*Dust often and use a vacuum cleaner to remove debris from seams and crevasses.
*Use a soft damp cloth to gently clean soiled areas and wipe clean. Do not rub.
*Do not use household cleaners or solvents. Such cleaners may cause damage and/or discoloration.
*Do regularly use dedicated leather care product onto the leather furniture to prevent built up of body oils.

User Wireless Charging Guidelines

ATTENTION – WIRELESS CHARGING

1. **Heat During Charging:** Some heat may be generated during wireless charging. This is normal during the wireless energy transfer process.
2. **Proper Placement:** Center the phone on the wireless charging icon or charging area for proper alignment and efficient charging.
3. **Keep the Charging Area Clear:** Remove coins, keys, cards, metal objects, and other foreign materials from the charging area before use. Foreign objects may interfere with charging or cause excessive heat.
4. **Avoid Metal Components:** Do not charge a device with a case or accessory containing metal components, as they may interfere with charging and become hot.
5. **Phone Cases:** Thick or incompatible phone cases may reduce charging performance and increase heat. Remove the case if the device does not charge properly.
6. **Excessive Heat:** If the phone or charging surface becomes excessively hot, stop charging and allow it to cool before resuming use.
