Astor

995

Materials: Oak, pine and walnut.

Finish: Glazed, antiqued and burnished clear tones that accentuates the high low veneer effect and allows for color differentiation between the wood species.

Inspiration: A five piece casual transitional table collection that features dramatic veneer faces and a casual finish.

Number of Pieces: 5

Description: Astor is a five piece table group that combines clean transitional design with a stunning starburst motif with a multi-step finish. The result is a sophisticated high style group that works with a variety of upholstery styles. The tray table tops encase the dramatic starburst design that is applied in a veneer pattern that is high and low. Several color tones appear by using oak, pine, and walnut veneers strategically in the pattern. The lower shelves feature the tray design with random matched oak veneer surfaces. Feature accents include the long and narrow console and the entertainment console with starburst motif on all three doors.
