03 Product installation diagram

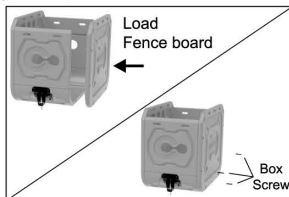

1. Take the left fence board and put it under the fence plate, lock the box screws.

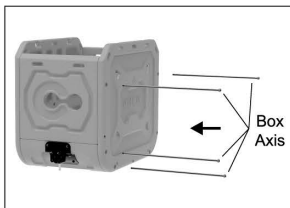

2. Put the front fence board into the bottom plate, right direction and slot position, lock the box screw.

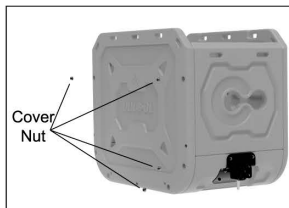

3. Put the rear fence board into the bottom plate, right direction and slot position, lock the box screw.

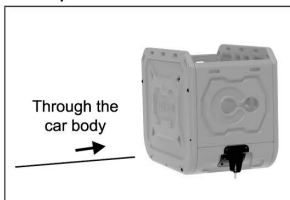

4. Put it into the right fence board and connect the car body. Install the screws in turn and lock them in place.

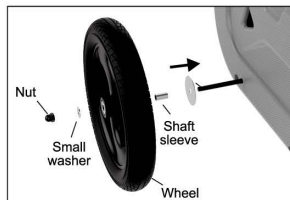

5. Twist one end of the nut and thread the connecting shaft of the box into the vehicle body in sequence.

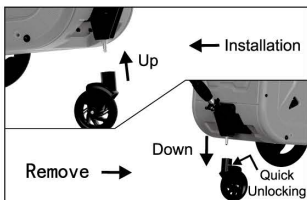

6. Lock the cap nuts in place in sequence.

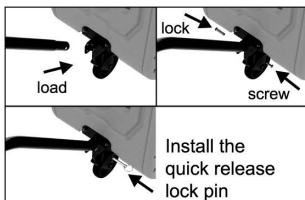

7. Put the rear wheel iron shaft into the car body hole.

8. Install the rear wheels on both sides into the rear axle in sequence (washer, wheel, washer, nut).

9. Align the universal wheel bracket to the hole position and put it upward. Hearing the sound of "bang", it indicates that it is in place; Press and hold the button of quick release lock to pull down the universal wheel to complete the disassembly.

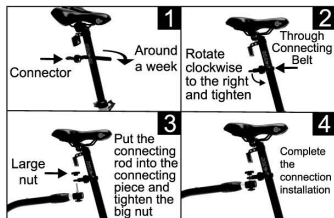

10. Take the connecting rod, install the connecting pipe into the fixed bracket, tighten the M8 locking screw, and then install the quick release locking pin.

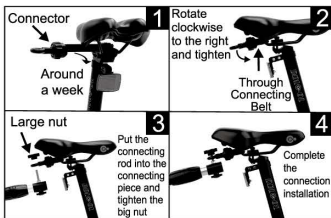

11. 快拆锁销拆装可切换使用模式。

06 Precautions

WARNING

- Please read the instructions carefully before use, follow the relevant assembly and instructions, and keep them.
- This product must be assembled and used by adults. Please put away the packaging plastic bags in time to avoid suffocation caused by children's play.
- Confirm whether the trailer hook is firmly connected to the bicycle and whether the location of the trailer ring is correct.
- Place the trailer on the flat ground and make sure that the trailer legs are firmly supported on the ground.
- Adjust the length of the trailer rope to make the distance between it and the bicycle and the trailer moderate.
- Before use, please carefully check whether all parts are installed in place, whether the connection is tight, and whether the tires are intact.
- In the process of driving, pay attention to maintain a stable speed, avoid sudden brake or sharp turn, in case the trailer is out of control or overturned.
- When parking, put the trailer legs aside to ensure the stability and safety of the trailer.
- When using, traffic road rules should be followed to ensure safe and stable riding.
- It is forbidden to use the original spare parts not provided by the manufacturer, and it is forbidden to change the structure, add parts and other modifications, so as not to cause failure or insecurity caused by the damage of the car platform.
- The maximum weight of this product is 25KG.

07 Common sense of maintenance

- Please check and maintain this product frequently to avoid normal use.
- Solid grease should be regularly added to all rotating parts such as axle and movable joints to improve the service life of products.
- Regularly check whether all fasteners are in good condition and whether the parts are damaged. If necessary, please replace them to make the products safer and longer.
- Avoid long-term use or storage in humid, cold or high temperature environments. Overload operation is prohibited.
- When cleaning the car body, you need to gently wipe the stains with cleaning tools such as wet towel or brush.
- If the product has problems that cannot be handled, please consult relevant experienced professionals.
