⑧ × 1

Step 1

Install the universal wheel onto component D, align the hole position, and tighten the screws

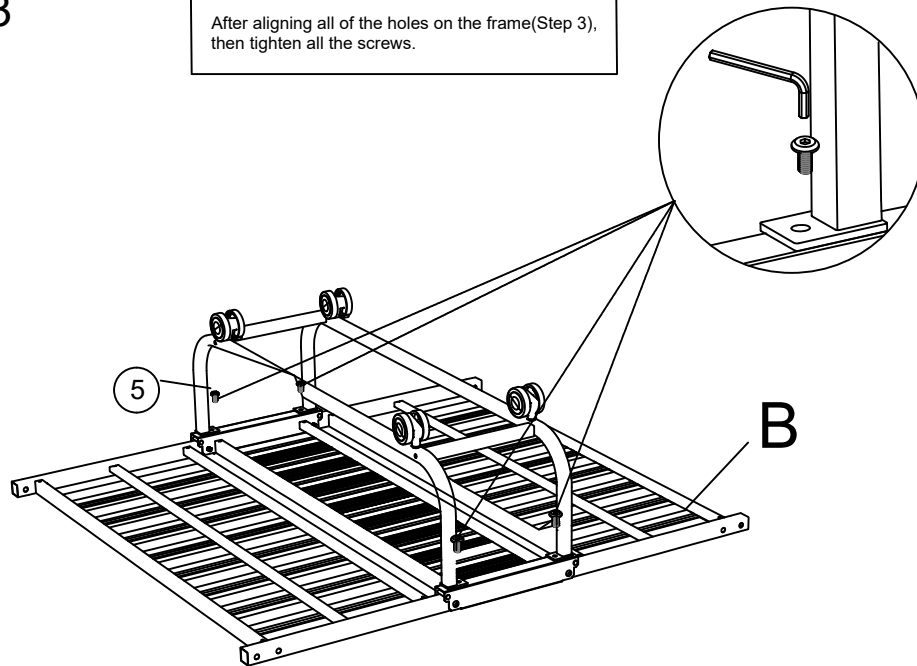

Step 2

Align the screw on one side with the hole and tighten it. After the installation is complete, proceed to install the other side

Step 3

After aligning all of the holes on the frame(Step 3), then tighten all the screws.

Step 4

Rotate and flip up both sides of the installed part

Step 5

Insert part F into part B. Align the hole positions and then install screws and rivets on both ends

Step 6

When installing component A, please insert it and align the hole positions as accurately as possible

Step 7

Insert part F into part B. Align the hole positions and then install screws and rivets on both ends

Step 8

When installing component C, please insert it and align the hole positions as accurately as possible

Step 9

 CAUTION

This step is necessary .!
Otherwise it will cause component
deformation .

Step 10

Holes for installing storage bags are reserved on both sides of
the bed, and you can choose to install a storage bag on one
side

G × 1

Step 11

Align the hole position of the storage bag with the reserved hole position, and then tighten the screws to complete the installation

Step 12

Place the mattress on the already unfolded bed

Step 13

The two sides, head, and tail of the mattress are secured with magic tape.

Step 14

When moving the folding bed , please do NOT pull the strap .
