Warning: If you overturn the furniture, it may cause serious or fatal crushing injuries. We have a wall connection device attached, please use it to hold the furniture following these instructions.

1. Mark the corresponding hole positions where you want to place the furniture;
2. Use an impact drill to drill holes and pay attention to avoid wires and water pipes;
3. Knock the expansion pipes into the wall holes;
4. Place the furniture in the corresponding position and tighten the wall connection device with screws.

Avertissement : Si le meuble bascule, il peut provoquer des blessures graves ou mortelles par écrasement. Un dispositif de fixation murale est fourni ; utilisez-le pour fixer le meuble en suivant ces instructions.

1. Marquez les emplacements des trous correspondant à l'endroit où vous souhaitez placer le meuble.
2. Utilisez une perceuse à percussion pour percer les trous, en veillant à éviter les câbles électriques et les conduites d'eau.
3. Enfoncez les chevilles d'expansion dans les trous du mur.
4. Placez le meuble dans la position prévue et serrez le dispositif de fixation murale avec les vis.

Step/Étape 19

When installing the small drawers, please note that they use a different mounting structure than the large drawers. Keep the telescoping slides in the collapsed (not extended) position. Align the drawer-side locking tabs/slots with the slide members and insert the drawer, then push it all the way in until fully seated. Confirm that the mounting holes in the slide are perfectly aligned with the pre-drilled holes in the drawer side panels, then install the screws to secure the slides to the drawer side panels.

Lors de l'installation des petits tiroirs, notez qu'ils utilisent une structure de fixation différente de celle des grands tiroirs. Gardez les glissières télescopiques en position rentrée, non déployée. Alignez les languettes ou encoches de verrouillage côté tiroir avec les éléments de glissière, puis insérez le tiroir. Poussez ensuite le tiroir à fond jusqu'à ce qu'il soit bien en place. Vérifiez que les trous de montage des glissières sont alignés avec les trous prépercés des panneaux latéraux du tiroir, puis installez les vis pour fixer les glissières aux panneaux latéraux du tiroir.
