SAFETY INSTRUCTIONS

1. Please read the instructions carefully before use.

2. Make sure the wall can bear the weight of the mirror.

3. Do not use ropes or chains to hang the product.

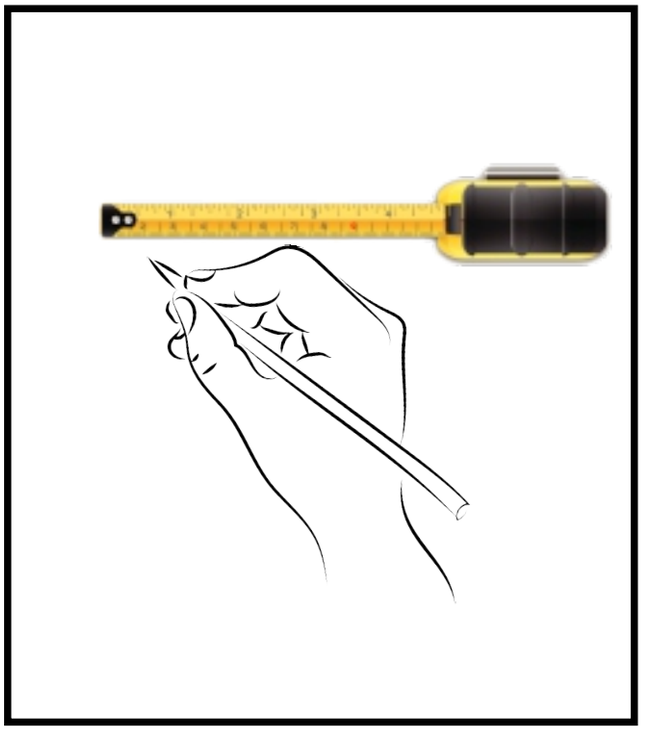

4. Before starting the electrical installation, the main power supply must be disconnected.

5. All electrical products should be installed by a qualified National Electrical Code (NEC) .

6. Before drilling, make sure there are no hidden electrical wires or pipes in the wall.

7. Keep your belongings away during the installation to avoid any damage.

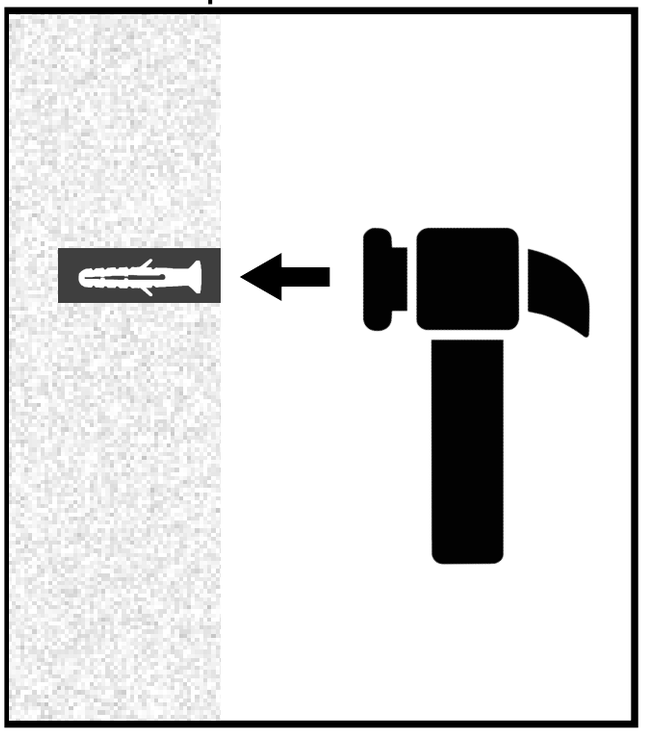

8.Please note the following when modifying a wall switch:
This switch only provides power and cannot control the lights; light switching, three-color illumination, and brightness adjustment can only be achieved via the touch switch button.

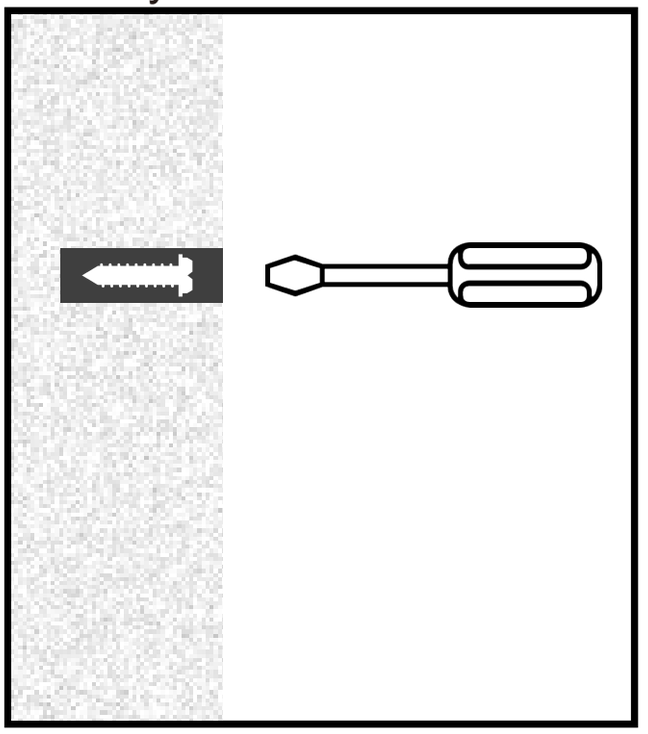

Step 1:
Use a ruler to draw a straight ine to keep the mirror level.

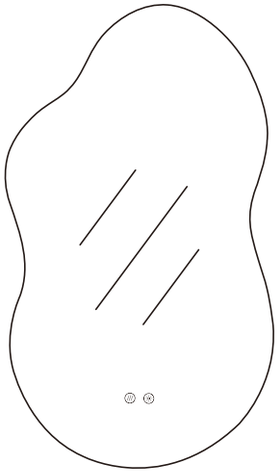

Step 2:
Drill two holes according to the screws you received.

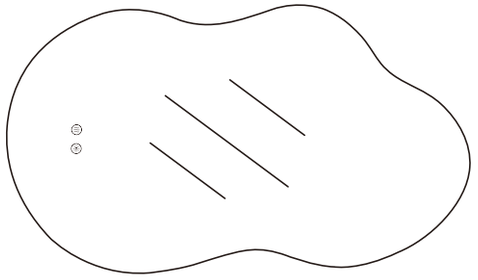

Step 3:
Use a hammer to hammer in the expansion tube.

Step 4:
Screw the screws into the expansion tube.

Vertical

Horizontal
