

Cast Stone & GFRC Finishes

Aged Limestone (AL)
An antiqued brown with mossy green highlights.

Alpine Stone (AS)
A rich slate color inspired by stone found in the foothills of the Italian Alps.

Brownstone (BR)
A warm chocolate brown.

Copper Bronze (CB)
An aged, oxidized copper.

English Lead (EL)
A soft chalky grey patina with hints of darker grey/warm brown highlights.

English Moss (EM)
A vibrant spring green patina which mimics the appearance of natural moss.

Ferro Rustic Nuovo (FN)
Mimics the appearance of rusty iron.

French Limestone (FL)
An off-white cream color meant to simulate the look of natural limestone.

Greystone (GS)
A classic grey patina which simulates the look of aged stone.

Lead Antique (LA)
A weathered blue grey patina which simulates classic antique lead.

Natural* (NA)
No patina applied.
*(Not available for GFRC products.)

Nero Nuovo (NN)
A rich black.

Pietra Nuova (PN)
A warm brown with walnut and mahogany undertones.

Terra Cotta (TE)
A warm clay color intended to mimic fired terra cotta, a classic material for garden planters and ornamentation.

Travertine (TR)
A soft honey color inspired by Roman travertine.

Verde (VE)
A grey with soft green undertones, warmer than our Greystone.

Please note: Actual colors may vary slightly from those depicted above.
