PRODUCT ASSEMBLY

1

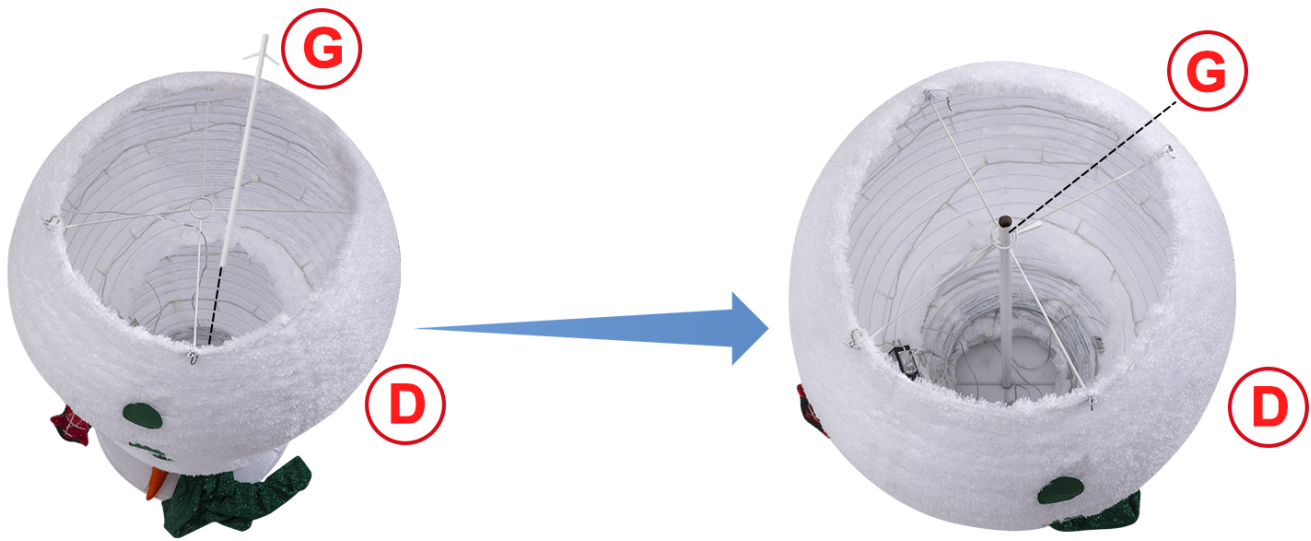

Turn the snowman's shell upside down.

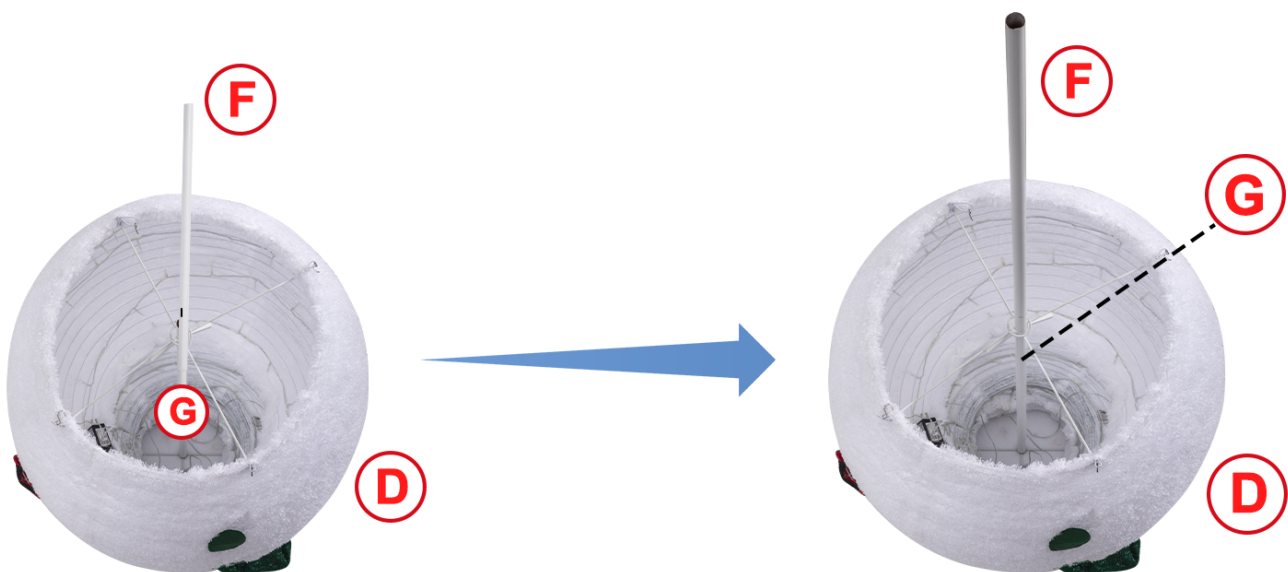

D

PRODUCT ASSEMBLY

- 2** Install irons with forks.
(NOTE:1. You must place the bottom of the snowman on the outside of the iron. 2. Pay attention to the green buttons, Make sure the arm holes are in a horizontal opposition with the buttons, and it is convenient to follow the arms of the snowman, and the body's insertion angle is correct.)

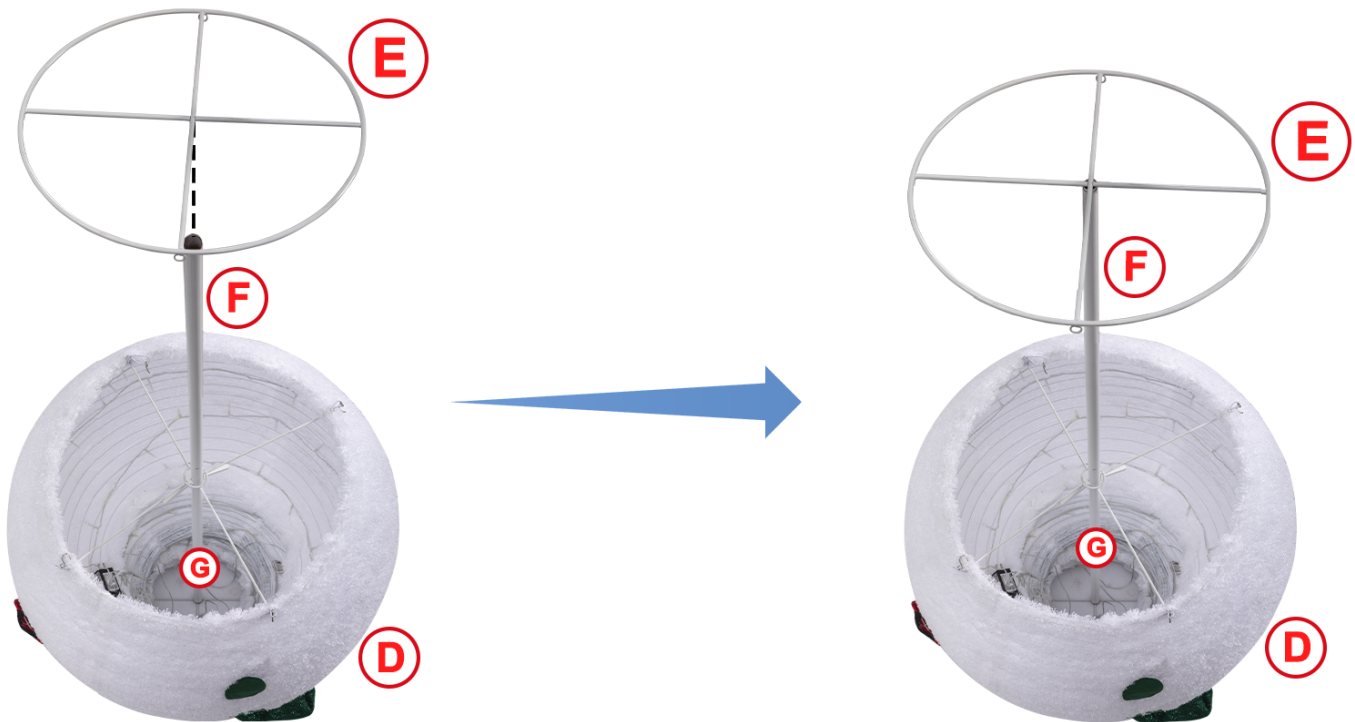

- 3** Insert another iron bar into the installed iron bar.

PRODUCT ASSEMBLY

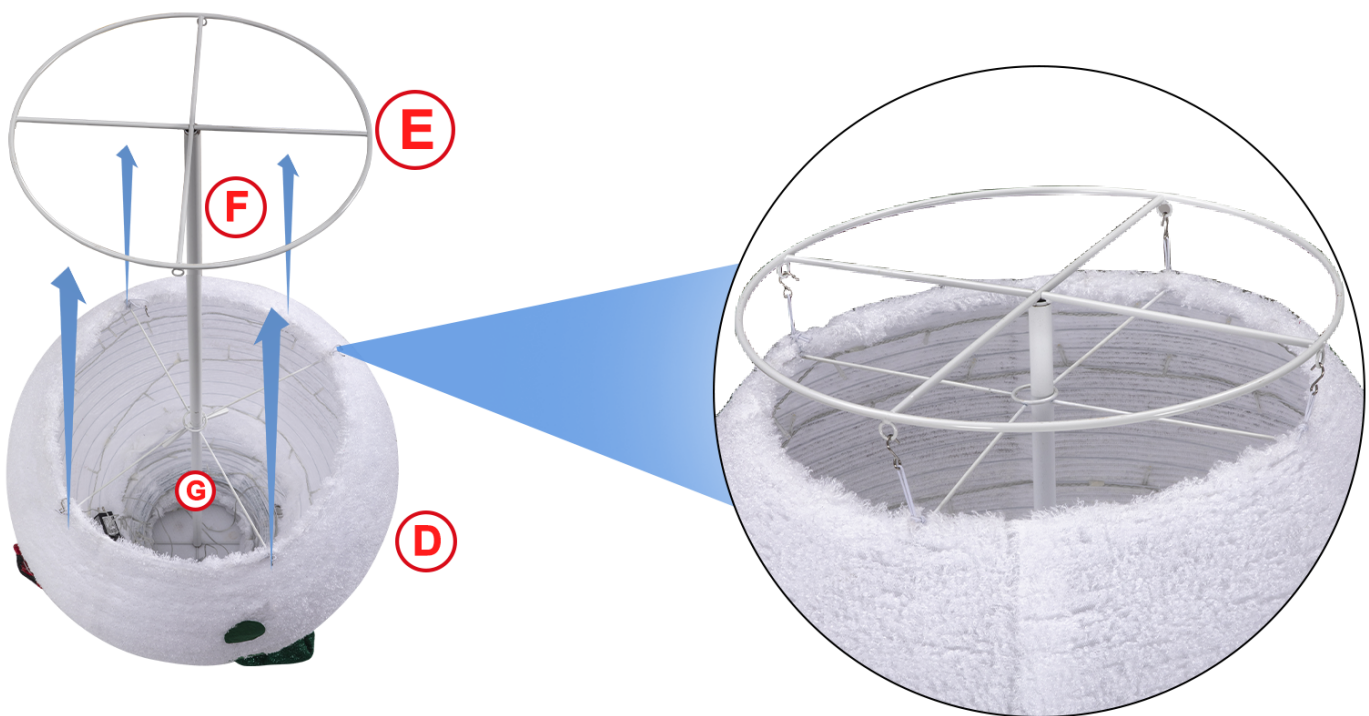

4

Insert the base at the end of the iron bar.

5

Hook the hook at the bottom of the snowman over the 4 holes in the base.

PRODUCT ASSEMBLY

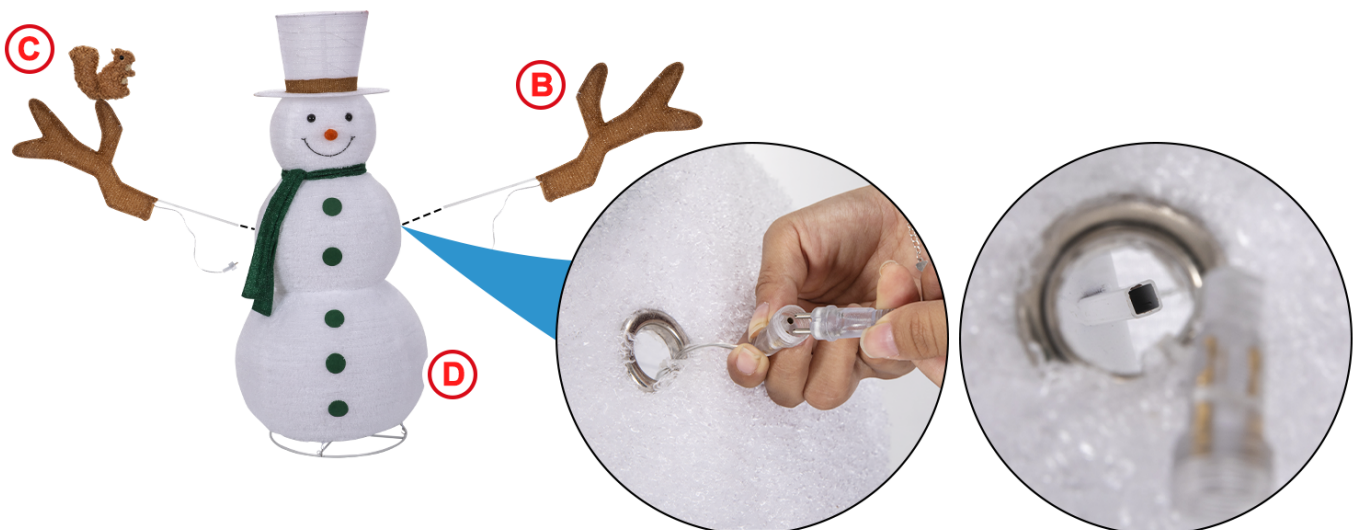

6

Straighten the snowman.

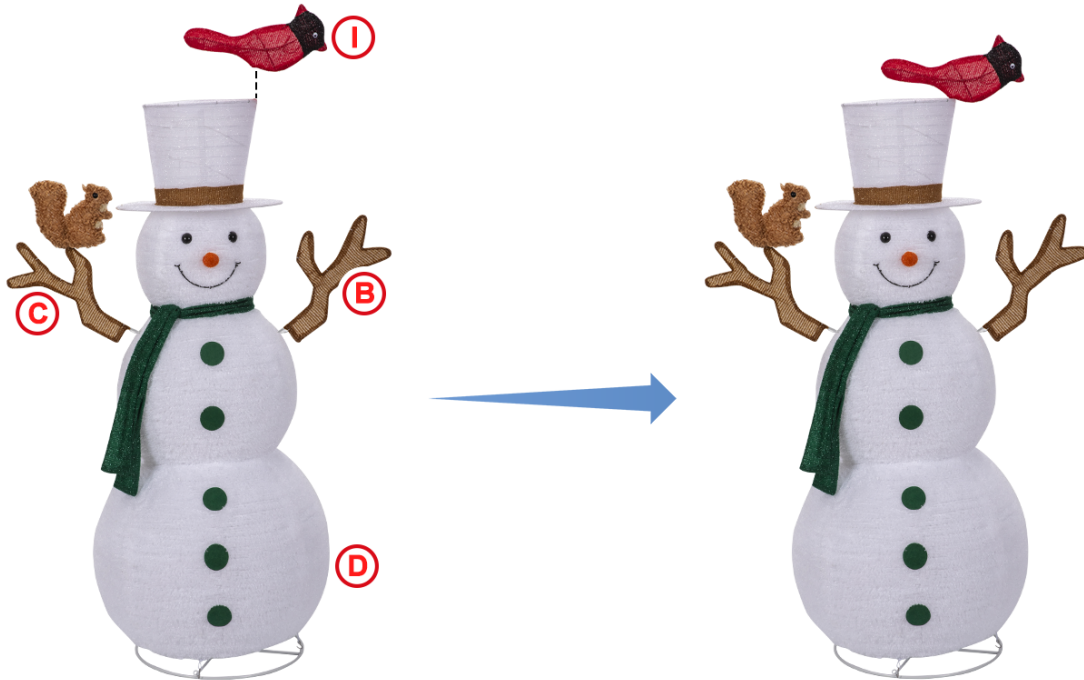

7

Connect the light belt at the arm and insert the connector into the snowman's body, then install the snowman's arm on the body. (NOTE: You must first insert the connector of the light belt into the snowman's body before installing the arm, otherwise the connector will not fit into the body.)

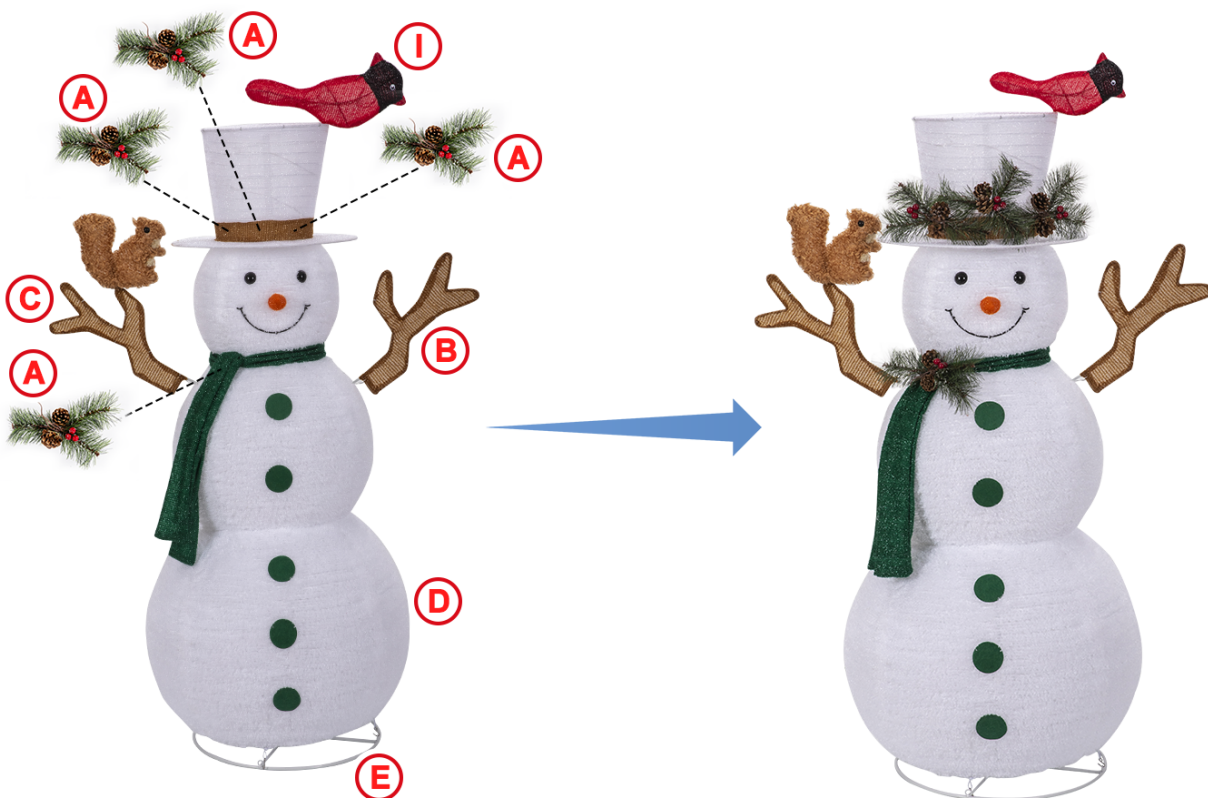

PRODUCT ASSEMBLY

- 8** Stick the squirrel in the pole on the arm, and the cardinals in the pole on the hat. You can decide whether to decorate the scarf with pine cones according to your preference.

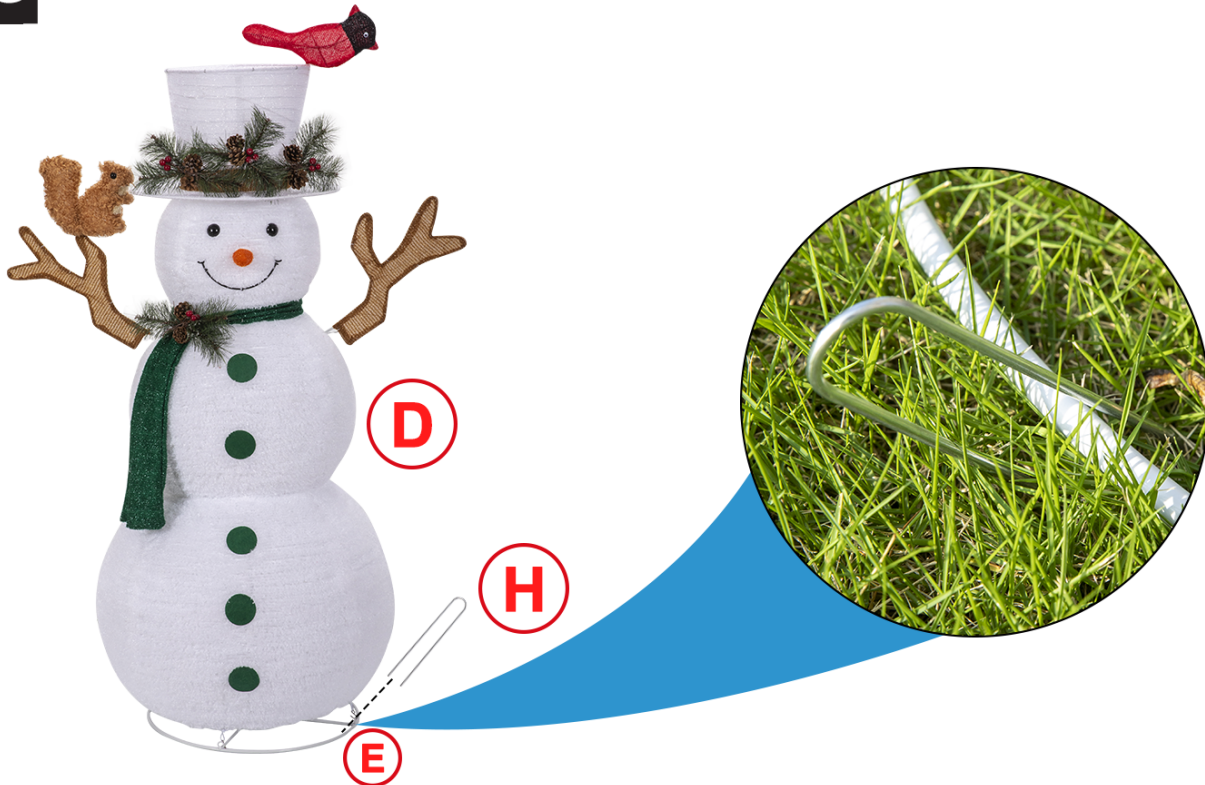

- 9** Insert the cardinal into the metal connector at the top of the hat. Wire the pine cone decorations to your liking on the snowman's scarf.

PRODUCT ASSEMBLY

10 Push the "U" stakes to the ground

11 Plug in the adapter to turn on the light. Press the white button to activate the timer function for 6 hours on and 18th hours off.

12 Put the snowman in our storage bag when not in use, take it out to use again until next Christmas. It will look just like the new next year!
