

ASSEMBLY AND INSTALLATION INSTRUCTIONS

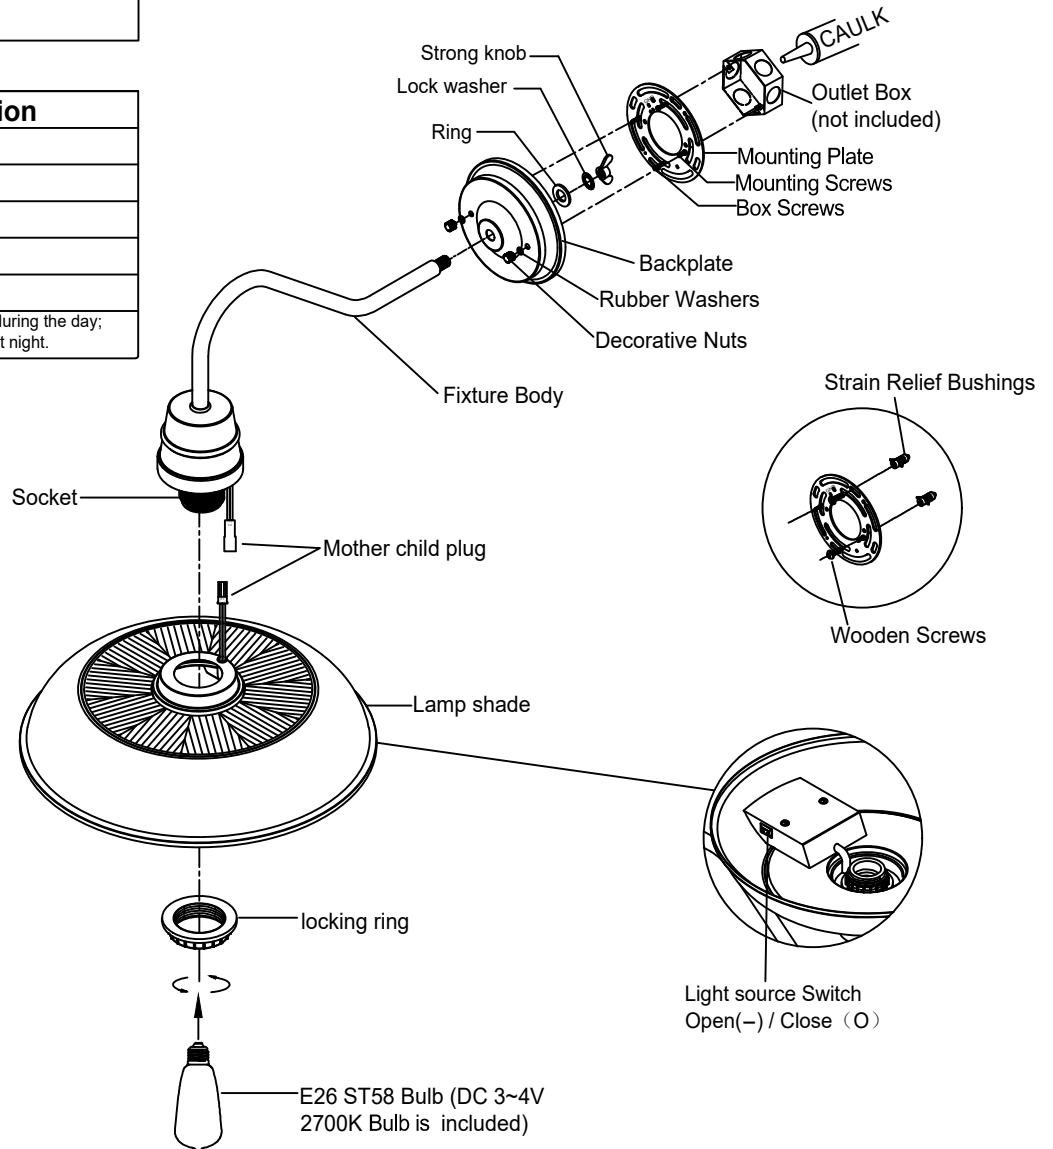

Model: CA2717-2MW

Kind Reminder :

This lighting fixture needs to be installed In a sunny place

Product Specification

Battery capacity	6000mA
Output voltage	DC 3~4V
CRI	80
Color Temp	2700K
Material	Metal & Glass
Solar energy control	Automatic lights off during the day; automatic lights on at night.

Installation Instructions

1. Drill holes at your desired installation location according to the distance between the two holes on the mounting plate. Install the mounting plate in the desired position using 2 adhesive seedlings and wooden screws.
(Fix the mounting plate onto the Outlet box using screws)
2. Insert the specific toothed end of the clamp into the hole on the back plate, add a Ring, Lock washer ,and lock it with a Strong knob.
3. Connect the sub plug of the lampshade to the female plug on the lamp head, then insert the hole in the lampshade into the lamp head and lock it with a lamp ring (hide the wire before inserting the lampshade, do not press the wire)
4. Connect the back panel of the lamp to the mounting plate, and then fix it with two decorative nuts and rubber washers.
5. Install the E26 ST58 Bulb (DC 3~4V 2700K Bulb is included)
6. Press the toggle switch to test the light source Open(-) / Close (O) .
7. Please remove the protective film before using all solar panels.
