(Interior View)**

**RIGHT PANEL
(Interior View)**

Step-By-Step Assembly Instructions for MG115HB/MG115RB:

- ① Place the bottom panel on dry and level ground.

BOTTOM PANEL
(In Box 1)

- ② Attach the rear panel to the bottom panel using latches pre-attached to the walls.

- ③ **Attach the left panel to the rear and bottom panels using latches.**

- ④ **Attach the right panel to the rear and bottom panels using latches.**

- ⑤ Place power box at designated space and tighten in place using two (2) PMW4*16 screws.

- ⑥ Attach a heater to the rear panel using TM4*40 screws. Connect heater cords to power box.

- ⑦ **Attach two (2) heaters to both the left and right panels using TM4*40 screws, lean a heater panel against the front of the left and right panels as shown below. Do not fasten with screws. Connect heater cords to power box.**

- ⑧ **Attach a heater to the bench support panel. Fasten with two (2) TM4*40 screws.**

- ⑨ Slide the bench support panel in place and connect heater cords to power box.

- ⑩ Place bench panel in place.

- ⑪ Place heater in place and fasten with two (2) TM4*40 screws.

- ⑫ Screw brackets to the front of the bench panel, securing the bench support panel to the bench panel.

- ⑬ **Attach the front panel to the unit and secure with latches.**

- ⑭ **Use the screwdriver to remove the glass protectors on the glass panel.**

- ⑮ Drop the top panel in place (ensure the top panel is centered correctly).

(Oblique View)

- ⑯ Please ensure the top panel is placed in the center. The clearance distance of L1, L2, L3 and L4 should all be the same.

(Bird's-eye View of Sauna)

- ⑪ Secure the top panel using twelve (12) KA4*40 screws.

(Oblique View)

- ⑫ Install door knob (place inside of the sauna, tighten with **LONG SCREW**) and door handle (place outside of sauna, tighten with **SHORT SCREW**).

**Your sauna is ready to use.
Please read the user manual for instructions on
operating your sauna.**
