If you have any problem, please do not hesitate to contact us

Thank for choosing our tent!

Thank you very much for buying our products. Before signing for delivery Please check the tent, if it is damaged, please do not hesitate to contact us and take pictures of the damaged parts to send us by email before returning the product to our shop, We will give you the best solution.

It is your responsibility to read and save these instructions before attempting to set up your commercial canopy. We would also like to suggest that you follow these safety precautions, care and maintenance tips when using your canopy.

- 1.** Never set up or continue to use in any rain, wind or storm conditions, especially lightning storms. Damage can occur to your canopy and put you and others in potential danger. Please do not leave your sun shelter up during these conditions.
- 2.** We suggest that you take your time in order to avoid bending the frame or pinching your fingers or hands while opening and closing the frame.
- 3.** Avoid setting up your canopy on steep inclines.
- 4.** Keep your canopy away from heat and flames at all times. Do not barbecue or build fires under your canopy.
- 5.** Never leave your canopy unattended.
- 6.** Hand wash the canopy using only mild soap and water. Never use harsh detergents, abrasives or bleach. Do not machine wash fabric components.
- 7.** Never fold or store your canopy when it is wet or damp. Let it dry completely to avoid mildew.
- 8.** The frame **MUST** be staked or properly weighted down at all times.
- 9.** Keep all flame and heat sources away from this sun shelter fabric.

Important Note:

- 1.** If the light does not work, it is most likely that the battery is very low. Please leave it in the sun for 4 hours or charge it with USB
- 2.** If The remote control doesn't work, maybe the battery is dead, please change the battery in time

ASSEMBLY INSTRUCTIONS

Step 1:

Easily open the part A - Canopy Frame in six directions until partially extended, Then put the Part B - Big Top on the correct position, and then Insert the wire into the Part DD-solar receiver, align it and rotate it gently as show

Insert the wire into the solar panel, then align it and rotate it gently.

Step 2:

Put on the big sun shelter A, each leg covers with a leg fabric.

Step 3:

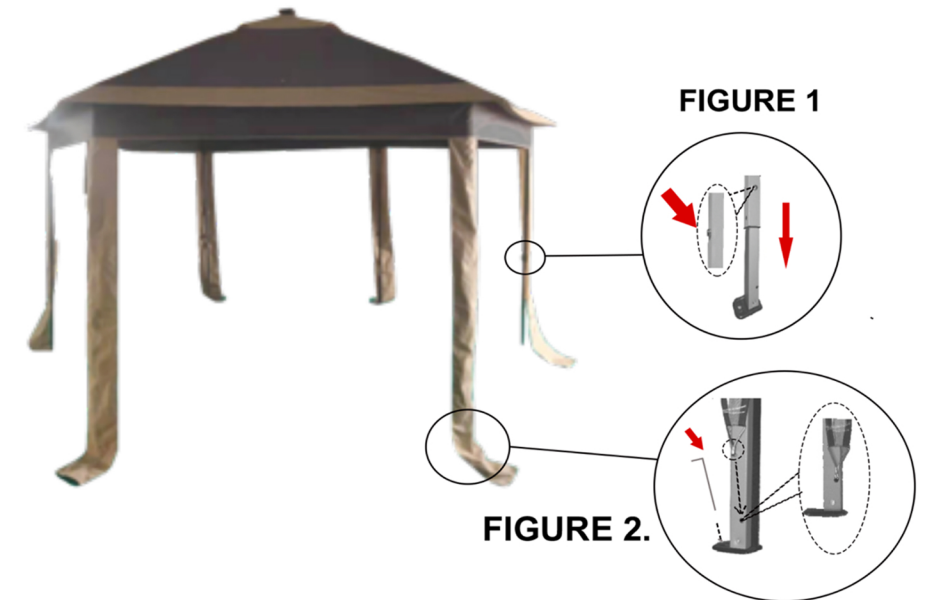

- 1) There are removable inner poles under eaves, pull them out a bit and fit them into the pocket on each corner of top fabric.
- 2) Extend the inner pole until the spring ball is fixed.

Be careful when folding the eaves.
Press the spring ball by one hand and push the pole inside by the other hand at the same time.

Step 4:

- 1) Step on the leg plastic base. Adjust the canopy height by lifting the leg until the leg locks into place, please see **FIGURE 1**. Do the same for the remaining 5 legs.
- 2) Hook the fabric of legs to bottom hole on inner pole, please see **FIGURE 2**.

Step 5:

Hang the netting around the cross bar by velcros. The netting should be hanged between the canopy leg and the leg fabric.

Step 6:

- 1) Insert one steel stake AA into a hole on the leg plastic base, please see **FIGURE 1**, secure the canopy to the round, do the same on the other 5 bases.
- 2) Tie rope CC to the plastic ring on the corner of the canopy fabric, please see **FIGURE 2**. Tie the other end to the ground stake, please see **FIGURE 3**. Adjust the tension on all 6 ropes for additional support.
