

WARNING!

Be sure electrical power is OFF before and during installation or maintenance.
The luminaire must be installed by a qualified electrician, in accordance with all applicable local codes.

Ensure that the rated luminaire voltage requirements are compatible with the available mains supply in which it will be installed.
All LEDs are included in your lamp. Never touch the LED surface with your bare hands as this may reduce the life of your LED.
Do not alter, relocate or remove any electrical component.

Line: Faceted
Family: Wall
Description: Accord Faceted Sconce 4219

Material: Natural Wood Venner and MDF.

Read carefully all the assembling instructions below and turn OFF energy power before starting the installation.

Turn off the electrical power before starting the installation, and keep it turned off until the installation is completed.

- ① Remove the protective packaging from the parts, being careful not to damage any parts with sharp surfaces or objects. Arrange the luminaire parts on a horizontal surface, if necessary, use protective packaging to smooth the support surface and protect the parts against scratches or damage.
- ② Make electrical connections respecting all safety standards and codes and governing electrical installations. This product must be installed in accordance with the applicable technical standards and by a person familiar with electrical installations, the product, and aware of the risks involved.
- ③ Using the provided screws (P1), attach the mounting base (B) to the junction box.
- ④ After securing the base to the wall, install a G-9 light bulb with a maximum power of 8W.
- ⑤ Then, bring the fixture to the fixed support base on the wall, positioning it until the piece clicks into place.

Turn on the power.

Your fixture is ready for use
