

## Assembly Instructions for Soft Comfort Swing Chair

*Thank you for purchasing an Algoma Soft Comfort Swing Chair.*

*This chair can be used with Algoma's chair stand  
or hung without a stand. See below for use without a stand.*

### Instructions for Assembly

If you purchased Algoma's exclusive chair stand, please follow the instructions for assembly of the stand first. Then, simply attach the chair by the swivel hook to the hook portion of the chain provided with the stand.

If you plan on using the chair by any other means other than with an Algoma Stand, please note the following:

**WARNING: Make sure the location and construction you plan on hanging the chair from is sturdy and strong enough to support the weight of the individual using this product. Select a location for your swing to hang, approximately 6-1/2' to 8-1/2' off the ground or floor level and WILL SUPPORT A MAXIMUM OF 275 POUNDS.**

### Safety First

There are several ways to attach this product for use. The most important consideration is safety. To protect the customer, the user and the manufacturer of this product, please keep safety in mind when setting up this chair for use.

### Use Strong Hanging Hardware For Maximum Safety

There are many places to hang this chair such as porches, trees, patios, indoors, etc. which makes supplying the correct hanging hardware for your individual need difficult. Therefore, we recommend that you access a safe location and you determine which hardware will work best. Most home building supply stores or hardware stores carry an abundance of products such as eye-hook screws or bolts, chain, rope and the like to hook up your chair swing.

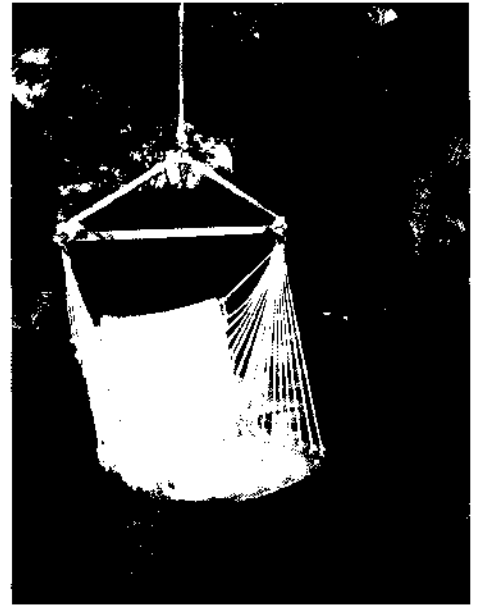

Again, keep safety in mind when choosing the hardware products to hang this chair. We even recommend purchasing a size of hardware which is even larger than what you would normally buy for safety reasons.

A welded chain with S-hook is supplied with the chair. You may use the chain in combination with the hardware you choose to attach to your location. The purpose of the chain is to allow adjustment according to your size.

If you are unsure of what item to purchase to hang the chair, you may consider contacting a local home builders association or local builder for more advice.

## Suggestions for Usage

1. The Algoma Swing Chair is designed with a strong swivel hook at the top. This will allow you to gently swing and turn for maximum enjoyment. **CAUTION:** Do not over swing or turn with sudden, drastic force. Do not jump into or drop forcefully into chair. This may cause your connection to give away and may result in injury.
2. The cords on the chair are made from very strong 100% polyester rope. After some use, the cords will stretch somewhat. This may require you to adjust the height of your chain connection. The recommended height would be with your feet slightly touching the ground when you are seated in the chair with your knees slightly bent.
3. Your Algoma Swing Chair is made from a high quality outdoor resistant fabric. However, we highly recommend that you bring the chair inside when not in use. This will keep the product out of extreme weather conditions and extend the life of the product. The product will also be ready for immediate use because it will be clean and dry.

## Easy Care

4. **Regular Care:** Periodically wash by rubbing briskly with a mild detergent and rinse with water to keep fabric looking fresh and new, and to prevent mildew (liquid dishwashing detergent and warm water will work).  
**Stain Removal:** Wipe spill with warm water as soon as possible. If necessary, apply a laundry pre-wash and leave for 10 minutes. Then re-apply warm water and detergent and rinse thoroughly. Diluted chlorine bleach can be used on stubborn stains without affecting fabric color. Sponge thoroughly with clean water and air dry.

**WARNING: ADULT SUPERVISION IS RECOMMENDED  
DURING CHILD USE. CHECK ALL INSTALLED  
HARDWARE BEFORE EACH USE.**

If you have any questions or problems regarding our products, please call (920)487-5577 and ask for the Customer Service Department.
