

# **2-LIGHT VANITY LIGHT**

## **Owner's Manual**

## PACKAGE CONTENTS

Unpack your light fixture and check the contents. You should have the following items:

### PACKAGE CONTENTS

- |                     |                        |
|---------------------|------------------------|
| 1. Fixture          | 5. Socket Ring (x2)    |
| 2. Glass Shade (x2) | 6. Screw Cap (x2)      |
| 3. Owner's Manual   | 7. Mounting Bracket    |
| 4. Hardware Kit     | 8. Mounting Screw (x2) |

### HARDWARE CONTENTS

- |                        |                        |
|------------------------|------------------------|
| 9. Wire Connector (x3) | 10. Bracket Screw (x2) |
|------------------------|------------------------|

## HARDWARE CONTENTS

## TOOLS REQUIRED (not included)

**Tools required for assembly:** Electrical tape, Phillips Screwdriver, Pliers, Safety Glasses, Step Ladder, Wire Cutters and Wire Strippers

**Helpful Tools:** AC Tester Light, Tape Measure, and Wiring Handbook

## SAFETY INSTRUCTIONS

READ ALL SAFETY INFORMATION AND INSTALLATION INSTRUCTIONS BEFORE BEGINNING TO INSTALL THE LIGHT FIXTURE AND SAVE INSTRUCTIONS.

- This fixture is intended for indoor or damp locations. It is not suitable for outdoor locations.
- The net weight of the light fixture is approximately 4.8 lbs (2,18 kg).

### WARNING

- To avoid risk of electric shock, be sure to shut off power at the main fuse or circuit breaker box before installing or servicing this fixture. Turning off the electrical power by using the light switch is not sufficient to prevent electrical shock.
- Installation must comply with the national electrical code, ANSI/NFPA 70-1999 and local codes. If you are unfamiliar with the methods of installing electrical wiring, seek the services of a qualified licensed electrician.
- To avoid personal injury, the use of gloves or protective clothing may be necessary when handling fixture parts with sharp edges.
- To reduce the risk of fire, electrical shock or personal injury, do not connect this fixture to an outlet box that is not properly grounded.
- To reduce the risk of fire, electrical shock, or personal injury, each wire connector used with this light kit should accept only one 18-gauge wire from the light kit and one 18-gauge wire from the outlet box.
- Wire colors from the outlet box may not be the same color used in this manual. When in doubt, consult a qualified licensed electrician to determine the proper wiring.
- For indoor locations - If using the fixture indoors in a wet location, it must be connected to a supply circuit that is protected by a Ground Fault Circuit Interrupter (GFCI) to reduce the risk of personal injury, electrical shock or death.

## ASSEMBLY INSTRUCTIONS

1. Turn OFF the electrical power at the main fuse or circuit breaker.

**DANGER:** Failure to disconnect the power supply prior to installation may result in serious injury or death.

2. Remove the screw caps from the mounting screws preassembled to the mounting bracket. Remove the mounting bracket from the fixture.

3. Use the bracket screws from the hardware bag to attach the mounting bracket securely to the outlet box.

**Note:** The position of the mounting screws will determine the orientation of the fixture.

4. Loosen the ground screw on the mounting bracket and wrap the bare wire from the fixture around the ground screw. Tighten the ground screw to hold the bare wire in place. **Note:** Ensure there is enough of the bare wire extending from the ground screw to connect to the ground wire from the outlet box using a wire connector.

## ASSEMBLY INSTRUCTIONS

5. Use wire connectors to secure the household supply wires to the fixture wires according to the image and the following instructions:

- Connect the black (hot) supply wire to the black wire from the fixture.
- Connect the white (neutral) supply wire to the white wire from the fixture.
- Connect the bare/green (ground) supply wire to the bare wire from the fixture.

Turn the wire connections and gently push them into the outlet box.

6. Hang the fixture on the mounting screws preassembled to the mounting bracket. Then use the screw caps to secure the fixture to the mounting bracket. **Note:** If the fixture is not flush against the wall, remove the fixture and loosen the hex nuts to allow the mounting screw length to be adjusted. Once adjusted retighten the hex nuts and reinstall the fixture.

7. Remove the socket ring from each socket. Raise the glass shade over the socket of the fixture. Secure the glass shade by twisting the socket ring clockwise onto the socket. Repeat for each socket.

8. Install the E26-base bulbs (sold separately) into the sockets of the fixture.

**Note:** Fixture is compatible with any E26-base LED, CFL, or incandescent bulb (60 watt max.).

Restore the power at the main fuse or circuit breaker and the wall switch.

**Assembly is complete.**

**WARNING:** Ensure the power is turned off to the light fixture before performing any maintenance.

PROBLEM	SUGGESTED REMEDY
Fixture does not light up.	<ol style="list-style-type: none"><li>1. Ensure power is on at the wall switch and fuses or circuit breakers. .</li><li>2. Check wire connections.</li><li>3. Replace bulbs.</li></ol>

WARRANTY

1-YEAR LIMITED WARRANTY

The manufacturer warrants all of its light fixtures against defects in materials and workmanship for one (1) year from the date of purchase. If within this period the product is found to be defective, take a copy of the bill of sale as a proof of purchase and the product in its original carton to the place of purchase. The manufacturer will, at its option, repair, replace or refund the purchase price to the consumer. All costs of installation and removal of the fixture is the responsibility of the consumer. This warranty does not cover fixtures becoming defective due to misuse, accidental damage or improper handling and/or installation and specifically excludes liability for direct, incidental or consequential damages. As some states do not allow exclusions of limitations on an implied warranty, the above exclusion and limitation may not apply. This warranty gives you specific rights and you may also have other rights which may vary from state to state.
