## Installation Instructions For Deepening Planting Boxes

**1** Install a waterproof plug on each chassis

**2** Splice the chassis well

**3** Install the side panels on the chassis in turn

**4** Link the two column card slots

**5** Install the columns at once

**6** Install the waterproofing strips to the side panels in turn

**7** Waterproof strips are also installed at the chassis connections

**8** Install the reinforcement strips

**9** Finally, install the black cap

**Connect the six flower boxes together in sequence using the aforementioned method.**
