IMPORTANT, RETAIN FOR FUTURE REFERENCE: READ CAREFULLY

Tools Recommended

ASSEMBLY & INSTRUCTION MANUAL

IMPORTANT

You must read these instructions carefully before you start to assemble this greenhouse.Please ensure that you find all parts in the carton box in the correct type and quantity as mentioned in the list illustrated in every page accordingly.Please carry out the steps in the order set out in these instructions.Do not tighten the steps in the greenhouse until completing on the assembly of the poly carbon ate panels.Keep these instructions in a safe place for future reference.

SAFETY ADVICE

We strongly recommend the use of work gloves during assembly.
Do not attempt to assemble the greenhouse in windy or wet conditions,
Do not touch overhead power cables with the aluminum profiles.
Always wear shoes and safety goggles when working with extruded aluminum.
Dispose of all plastic bags safety-keep them out of reach of small children.
The greenhouse must be positioned and fixed on a flat level surface.
Do not lean against or push the greenhouse during construction.
Keep children away from the assemble area.
Do not position your greenhouse in an area exposed to excessive wind.
Do not attempt to assemble this greenhouse if you are tired ,have taken drugs or alcohol or if you are prone to dizzy spells.
If using a step ladder or power tools ensure that you follow the manufactures safety advice.
Hot items such as recently used grills, blowtorches etc.must not be stores in the greenhouse.
Ensure there are no hidden pipes or cables in the ground before inserting the pegs.

GENERAL ADVICE

This is a multi-part assembly, Allow at least 140 minutes for assembly.
Selecting a site-choose a sunny level position away from overhanging trees.
If you are fixing your greenhouse directly to a solid concrete foundation use the pre drilled holes in the metal base supplied.
The component parts should be checked and laid out close at hand.
Keep all small parts(screws etc)in a bowl so they do not get lost.
Note that the door is hinged on the right hand side and therefore opens tothe right.
Keep roof clear of snow and leaves.

Firstly, make sure a good installation location.
Find a flat ground which is 2 times bigger than the Green house before installation.

OTHER CAUTIONS

1. 2 people required, one is for measuring & taking marks to ensure the installation dimension ,the second person is responsible for the installation and the last one do as assistant and assure the safety.
2. High-power electric tools are required, ensure the normal work of them and highly pay\attention to electric safety.
3. Be careful when using the kind of blunt tools, like hammer.
4. Wearing long sleeve cotton overalls,gloves and helmet during installation and wea safety glasses
when using power tools.
5.No up watching when working height, or the drop screws may hurt your eyes and suffocation causing accidentally when fall into your mouth.
6. No climbing, No standing on the tent to avoid falling down.
7. If injuries immediately, using the first-aid kit to stop bleeding,bind up, In case of emergency, taken immediately to a nearby medical institutions.

Care & Maintenance:

1 Keep the shed clean with soft cloth;When your greenhouse needs cleaning, use a mild detergent solution and risen with cols clean water. Do NOT use acetone, abrasive cleaners or other special detergents to clean the clear panels.
2 Keep the door tracks clear of dirt and other stuff that prevent them from sliding easily.
3 Clean the snow with necessary tools to make sure it is safe to enter into; Heavy snow may cause collapse, please make sure safety before entering into.
4 The shed is not made for living but storing stuff.
5 Please add some oil on the top and bottom door sliding channel to make door slides smoothly.

IMPORTANT

Vous devez lire attentivement ces instructions avant de commencer à assembler cette serre. Veuillez vous assurer que vous trouvez toutes les pièces dans la boîte en carton et que leur type et leur quantité sont corrects, comme indiqué dans la liste illustrée sur chaque page. Veuillez exécuter les étapes dans l'ordre indiqué dans ces instructions. Ne serrez pas les marches de la serre avant d'avoir terminé l'assemblage des panneaux en poly carbone. Conservez ces instructions dans un endroit sûr pour toute référence ultérieure.

CONSEILS DE SÉCURITÉ

Nous recommandons vivement l'utilisation de gants de travail lors de l'assemblage.
N'essayez pas de monter la serre par temps venteux ou humide.
Ne touchez pas les câbles électriques aériens avec les profils en aluminium.
Portez toujours des chaussures et des lunettes de sécurité lorsque vous travaillez avec de l'aluminium extrudé.
Jetez tous les sacs en plastique en toute sécurité - gardez-les hors de portée des jeunes enfants.
La serre doit être positionnée et fixée sur une surface plane et horizontale.
Ne vous appuyez pas contre la serre et ne la poussez pas pendant la construction.
Tenez les enfants à l'écart de la zone de montage.
Ne placez pas votre serre dans un endroit exposé à un vent excessif.
N'essayez pas d'assembler cette serre si vous êtes fatigué, si vous avez pris de la drogue ou de l'alcool ou si vous êtes sujet à des vertiges.
Si vous utilisez un escabeau ou des outils électriques, veillez à suivre les conseils de sécurité du fabricant.
Les articles chauds tels que les grils, les chalumeaux, etc. récemment utilisés ne doivent pas être rangés dans la serre.
Assurez-vous qu'il n'y a pas de tuyaux ou de câbles cachés dans le sol avant d'insérer les piquets.

CONSEIL GÉNÉRAL

Il s'agit d'un assemblage en plusieurs parties. Prévoyez au moins 140 minutes pour l'assemblage.
Choix d'un site: choisissez une position ensoleillée, à l'abri des arbres en surplomb.
Si vous fixez votre serre directement sur une fondation solide en béton, utilisez les trous pré-percés dans la base métallique fournie.
Les éléments constitutifs doivent être vérifiés et disposés à portée de main.
Conservez toutes les petites pièces (vis, etc.) dans un bol pour qu'elles ne se perdent pas.
Notez que la porte est articulée sur le côté droit et s'ouvre donc vers la droite.
Gardez le toit libre de neige et de feuilles.
Tout d'abord, assurez-vous d'un bon emplacement d'installation.
Trouvez ensuite un terrain plat deux fois plus grand que la serre avant l'installation.

AUTRES PRÉCAUTIONS

1. 2 personnes sont nécessaires à l'installation, une pour mesurer et prendre des marques pour assurer la dimension de l'installation, l'autre est responsable de l'installation; pendant l'installation la deuxième personne fait office d'assistant et assure la sécurité.
2. Des outils électriques de grande puissance sont nécessaires. Veillez à ce qu'ils fonctionnent normalement et faites attention à la sécurité électrique.
3. Faites attention lorsque vous utilisez des outils contondants, comme un marteau.
4. Portez une combinaison en coton à manches longues, des gants et un casque lors de l'installation et portez des lunettes de sécurité lorsque vous utilisez des outils électriques.
5. Ne regardez pas en hauteur lorsque vous travaillez, car les chutes de vis peuvent vous blesser les yeux et vous étouffer accidentellement en tombant dans votre bouche.
6. Pas d'escalade, pas de station debout sur la tente pour éviter de tomber.
7. En cas de blessures, utiliser immédiatement la trousse de premiers secours pour arrêter le saignement, puis panser, En cas d'urgence, emmener immédiatement dans un établissement médical proche.

Entretien et maintenance :

1 Gardez la remise propre avec un chiffon doux;Lorsque votre serre a besoin d'être nettoyée, utilisez une solution de détergent doux et rincez à l'eau claire.
N'utilisez PAS d'acétone, de nettoyants abrasifs ou d'autres détergents spéciaux pour nettoyer les panneaux transparents.
2 Gardez les rails de la porte exempts de saleté et autres objets qui les empêchent de glisser facilement.
3 Nettoyer la neige avec les outils nécessaires pour s'assurer qu'il est sans danger d'entrer ;Une neige abondante peut provoquer un effondrement, assurez-vous de la sécurité avant
d'entrer.
4 La remise n'est pas faite pour soulever mais pour ranger des objets.
5 Veuillez ajouter un peu d'huile sur les glissières supérieure et inférieure de la porte pour que celle-ci glisse en douceur.
