

# SET - UP INSTRUCTIONS FOR HELLER WALL UNITS

The first and last upright in a string of wall units is a 1 1/4" thick with standard on 1 side.

All intermediate uprights are 3/4" thick and have standards on two sides. The edges, which are slightly rounded, are the fronts and tops on all uprights.

The base is attached

To the 1 1/4" upright by a 1 1/2" flat head bolt.

To the 3/4" upright by a 2 1/2" bolt, and this bolt passes through the upright and two adjoining base ends. T-Nuts for base-1/4 NS for connecting Top- 25. The tops are fastened in the same manner.

Bottom shelf is screwed down with two 1 1/4" screws. Adjustable shelves placed as desired with clips provided.

If units have backs, these are nailed in from the rear side with the finished side to the inside of unit.
