

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING:

TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

1. Locate the positions for the reinforcement holes on the wall using the mounting bracket as a template. Drill pilot holes and insert wall anchors.
2. Secure the mounting plate to the junction box using screws. Fasten the mounting plate to the wall anchors using self-tapping screws.
3. Wiring Connection
 - Use wire connectors to connect the black (hot), white (neutral) and ground wire to the corresponding wires in the junction box.
4. Attach the fixture to the mounting plate, and secure it using the provided screws.
5. Restore the power, and verify the light operates correctly.

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
