

NW Green Panels offers video instruction for installation via our YouTube page. You can either search “NW Green Panels” or type in the following link to find the page.

<https://www.youtube.com/channel/UC3mT5DF0DVZ36wgeuJQ7xeg>

You will want to start with the “Putting together the Greenhouse” playlist. This playlist will go over the majority of the installation.

If you have a cap/vent to assemble, continue to the “Assembling the Cap/Vent” playlist.

If you have a free-standing bench to assemble, continue to the “Free Standing Bench” playlist.

If you have any additional questions about the installation or would like more details on a section of the greenhouse, email your questions to customerservice@NWGreenPanels.com.
