PARTS LIST

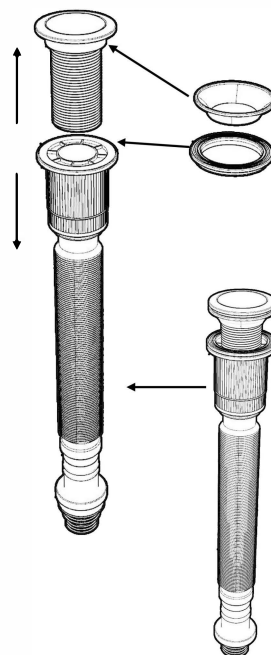

CAUTION: Please confirm the parts list before installation

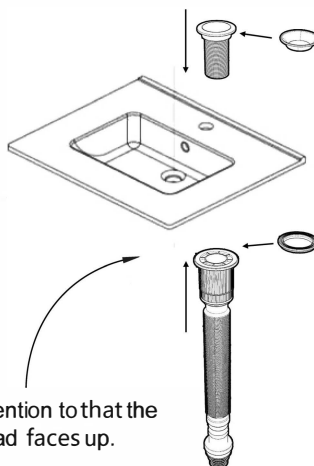

INSTALLATION

STEP 1

Take apart the pop up drain and put the thin rubber washer on top of the body

STEP 2

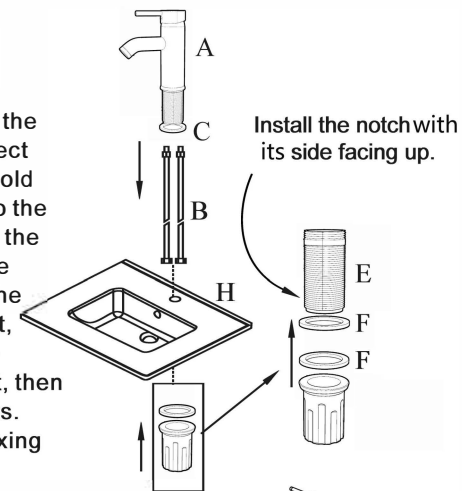

Insert the drain top into the vessel. Install thick rubber washer and drain nut in turn. Tighten the drain nut and then tail piece.

Pay attention to that the little head faces up.

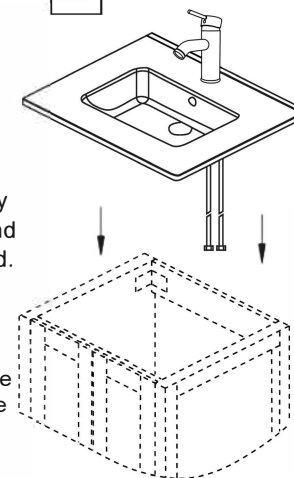

STEP 3

Position the gasket under the faucet. Connect the hot and cold water pipes to the faucet. Insert the faucet into the hole. Install the rubber gasket, then the large rubber gasket, then the fixing bolts. Tighten the fixing bolts.

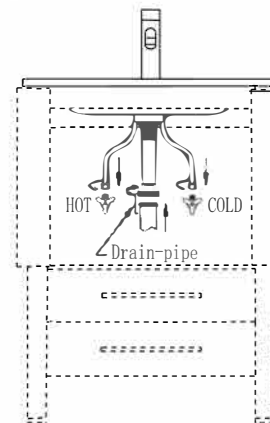

STEP 4

Carefully position the vessel on the tabletop and press down firmly. Immediately wipe away any excess sealant, and fill any voids as needed.

CAUTION: please do not remove the vessel before it dries and reserve an installation space for the faucet.

STEP 5

Tips: After installation, please open the drain and the faucet to perform a seal test
