Cleaning Recommendations

For daily or light cleaning of your Ella furniture, simply use a lightly dampened soft cloth to remove dust or surface dirt, and be sure to dry the surface afterward. For stubborn stains such as glue, paint, crayon, grease, varnish, or scale, consider the following options:

- Mix one tablespoon of bleach per liter of water, lightly dampen a soft cloth with this solution, clean your furniture, and then dry the surface to remove residue.
- Lightly dampen a cloth with a 50% alcohol + 50% water solution.
- Slightly dampen a cloth with thinner

Only in extreme cases will it be necessary to resort to cleaners that aid in this process. However, it is important not to overuse these cleaning agents or use them on a daily basis; their usage should be moderate and reserved for occasional use.
