

Installation and operation manual

Tips: After installing the lamp, turn on the power to test and confirm, and then install it on the ceiling.

1. Open the carton. Then take out the corresponding boxes according to the order of the above pictures

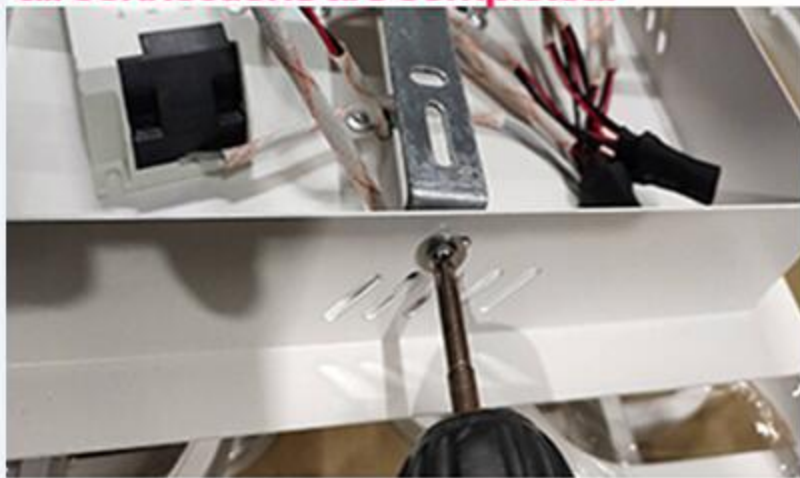

2. Then the number of the frame corresponds to the same number of the chassis in the string and then use screws to tighten

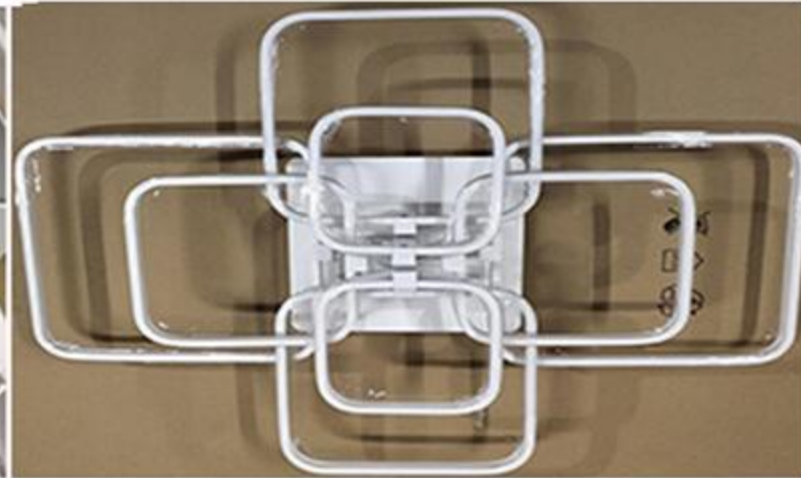

3. Tighten the screws and connect the port correctly. Note that the red wire is connected to the red wire and the black wire is connected to the black wire until all connections are completed.

4. Hang the cross from the ceiling. Fix with the screw

5. Then connect the whole lamp to the power cord at home and tighten the chassis with screws.

6. Install the finished product drawing. Tips: please test the power before installation. thank you
