## Maintenance and Cleaning Methods

1. Regular Vacuuming: Make it a habit to vacuum your fabric sofa regularly, at least once a week, to remove dust, dirt, and crumbs. Use a soft brush attachment to prevent damage to the fabric.

2. Spot Cleaning: Deal with spills and stains immediately to prevent them from setting into the fabric. Blot the spill with a clean cloth or paper towel to absorb as much liquid as possible, then use a mild detergent mixed with water to gently clean the area. Always test any cleaning solution on a hidden area of the sofa first to ensure it doesn't cause discoloration.

3. Professional Cleaning: Consider having your fabric sofa professionally cleaned at least once a year, especially if it's heavily used or if you have pets. Professional cleaners have the expertise and equipment to deep clean the fabric without causing damage.

4. Fluff and Rotate Cushions: Regularly fluff and rotate the cushions on your sofa to ensure even wear and maintain their shape. This will help prevent sagging and prolong the life of the sofa.

5. Protect from Sunlight and Pets: Position your fabric sofa away from direct sunlight to prevent fading and discoloration. If you have pets, consider using a protective cover or blanket to minimize damage from claws and hair.

By following these maintenance and cleaning tips, you can keep your fabric sofa looking fresh and inviting for years to come.

# Installation Procedure

Specific operations are shown in the following figure

## 2 arms connect with front panel

**! NOTICE:** When assembling, the longer fabric side is facing up, which is designed for use and aesthetic reasons. The longer fabric will fill the gap between the seat frame and the front panel.

Step 7: To attach the 2 arms with the front panel slide the connectors of the front panel into the armrest's receivers.

## Assemble 2 legs of the seat frame

Step 8: Place the support one front and one back in the corresponding position and tighten the screws

# Installation Procedure

Specific operations are shown in the following figure

## Details about the assembling of the legs

Long support leg(E)

Short support leg(F)

**Attention:** The legs are of different lengths

Step 9: To be more ergonomic ,the legs are of different lengths.

When assembling ,in load-bearing position (sit down /butt position ) you should use the short leg F.

# Installation Procedure

Specific operations are shown in the following figure

## Connect the front panel with the seat frame

Step 11: Special attention is required in the steps of connecting the front panel with the seat frame. For gravity reasons, the holes in the front panel will not be the same height as the holes in the sofa seat frame. So you need to lift the front panel with your hand, to make sure the 4 holes are in the same height, and then tighten it with screws.
