Sea Breeze Green 2

D1685S33695-2876

Sea Breeze II proposes a tranquil, cloud-filled landscape setting. Voluminous clouds command the scene and are anchored by a muted shore. A color palette favoring light hues of cream, ivory, cotton, and seafoam green fills the sky. A large swath of mauve extends across the cloud vista and a line of moss green separates land and sky. A slip of a sand beach foregrounds the work.

A delicate display of neutral tones within a coastal setting, Sea Breeze II creates a serene moment while looking out toward the sea. An original addition to the exclusive ART by TA Collection.
