

STICKLEY®

Walnut Grove Small Server Walnut Grove Small Server

With design details that echo the Walnut Grove Credenza, our 38-inch-wide Small Server functions beautifully as either a compact server or bar unit. It's crafted from solid American black walnut with a transparent finish showcasing its dramatic grain. A countertop that seems to float above the case features an inset stone surface for easy cleaning, and pull-out shelves on either side extend the workspace. The two-door cabinet with wooden knobs contains an adjustable/removable shelf on each side, easily rearranged to accommodate dishes, glassware, or bottles.
