INSTRUCTION MANUAL

1. Specification

- Rated voltage and frequency: AC220-240V, 50/60HZ
- Attention: read the manual carefully before installing the lamp

2. Warning

- The installation work should only be performed by a qualified electrician
- Ensure the light is disconnected from mains power before installation
- Make sure the light is securely supported
- Light is for indoor use only

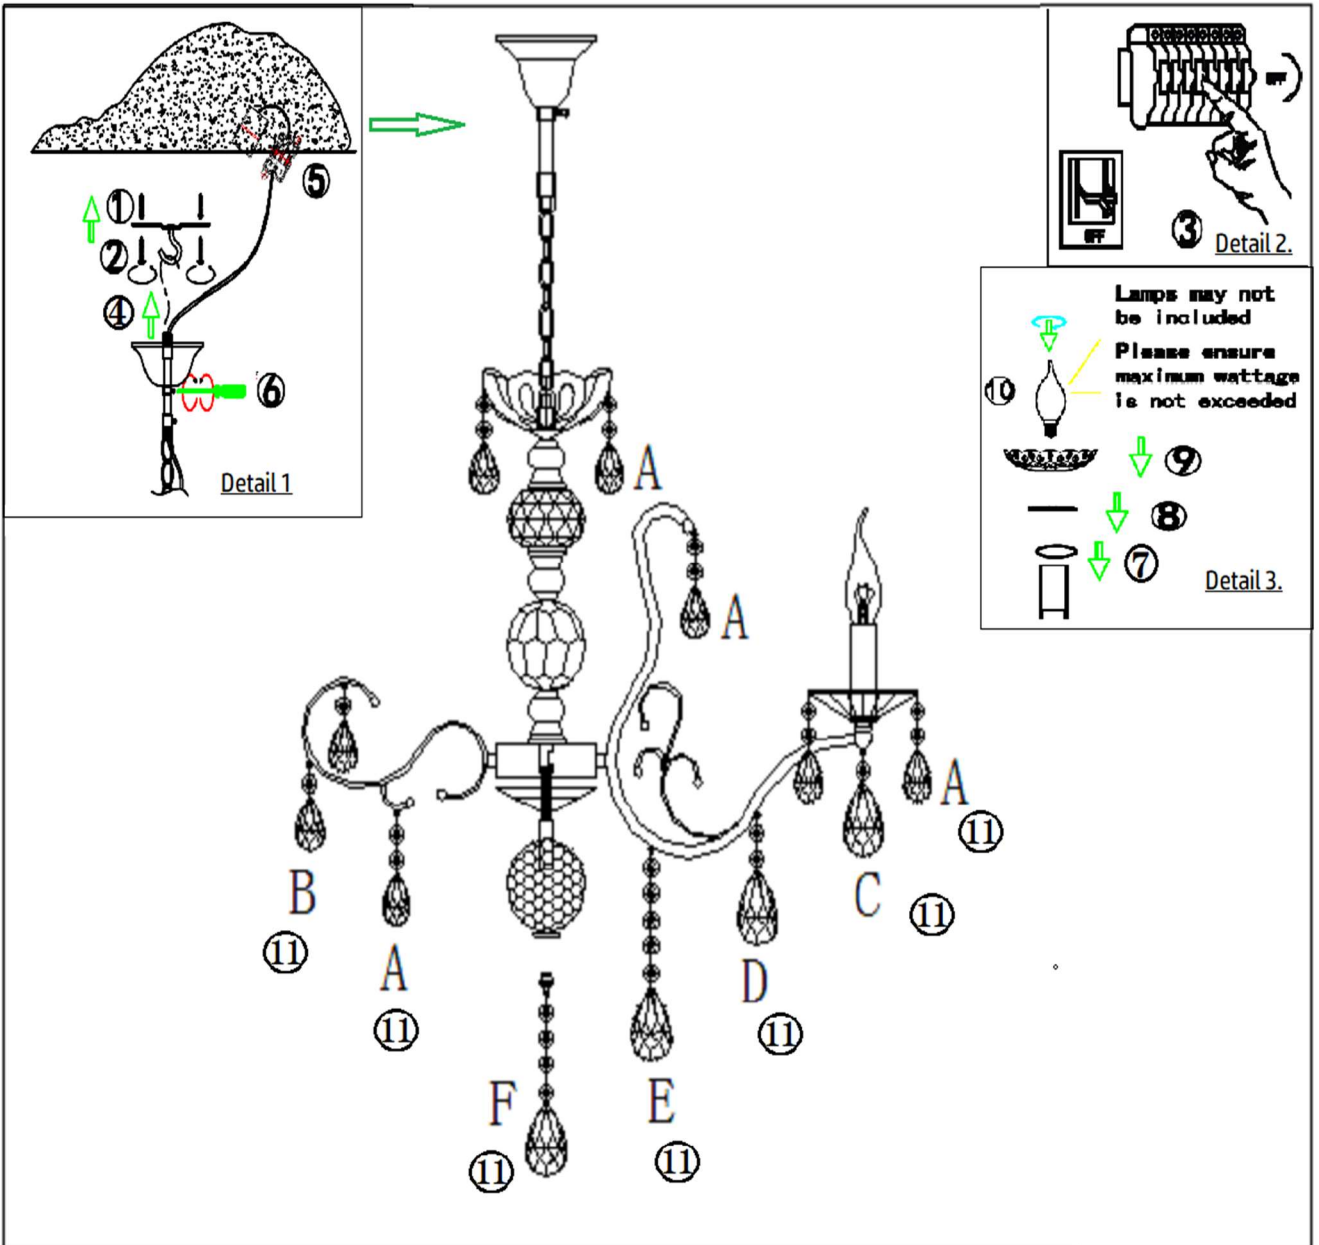

3. Important

- Advised to wear gloves during installation to avoid accidentally scratching the light surface
- Light must not be installed on any areas where there is damp or on a damaged ceiling
- Please check the weight for this particular light, please ensure that the ceiling fixing is adequate to hold this weight
- It is advised to not touch the light when it is switched on as it can get very hot
- When replacing bulbs, turn off the mains power and allow the bulb and shade to cool down first before replacing any bulbs
- Use a dry cloth to clean the lamp and avoid getting it wet
- If the external flexible cable or cord is damaged then it should be replaced by either the manufacturer or a qualified electrician in order to avoid any potential hazards

4. Installation Instructions-We recommend that you assemble the ceiling light in the below order.

- 1) Take the main body of the chandelier and mark holes in the ceiling. You need to alternate between the small and big arms. Drill holes and use wall plugs if necessary. (detail 1)
- 2) Screw the arms into the ceiling.
- 3) It's now important to cut the main power to install the chandelier, ensure that the electrical circuit is switched off. (detail 2)
- 4) Hook the main chandelier by the rope onto the frame attached to the ceiling. (detail 1)
- 5) Connect the electrical wires into the existing lighting circuit in the ceiling. Ensure that live is connected to live, neutral to neutral and earth to earth.
- 6) Adjust the rope length to the required length and then fix it.
- 7) Attach the candle base to the frame.
- 8) Attach the candle middle to the base.
- 9) Attach the candle holder to the candle middle.
- 10) Screw the candle bulb into the holder.
- 11) Hang the crystals onto the chandelier, note that crystals are labelled A to F and need to be placed in the correct location shown on the diagram
