Installation Instruction

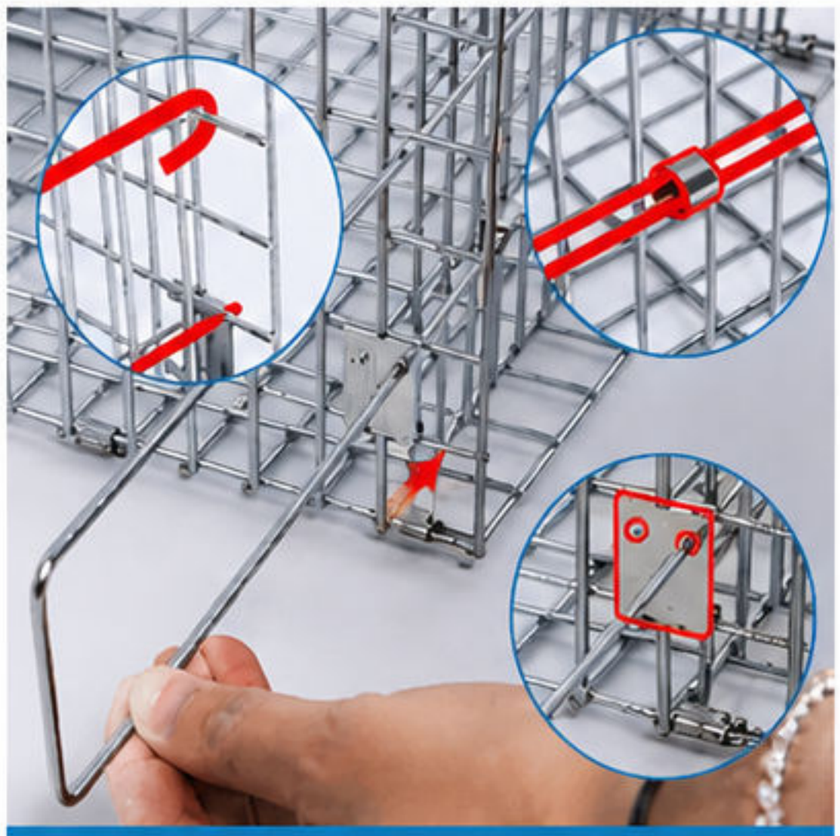

1.Hold the handle and lift it up, then the trap will turn to the unfolded cage shape.

2.Overturn the Square Support Frame, then place it to secure the cage shape.

3.Use the rear door to place bait and release trapped animal.

4.Fixing clip (Small square U-shaped wire) can be inserted through the desgn-tated holes and door rings to ensure the rear door doesn't open.

5.Push down the plate on the Front Door as shown, then lift up the door. When the door is lifted, move the Front Door Pothook to hook the Front Door.

6.Use the U-shaped end of the Trigger Rod to pass through the Trigger Pedal hole from the edge of the Pedal. Connect the L-shaped end of the Trigger Rod to the Front Door Pothook.
