

# Installation Instructions

| PARTS                                                                                             |                                                                                                      |
|---------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------|
| Leg<br>x 4<br> | Washer<br>x 4<br> |

## INSTRUCTIONS

1. Turn the chair upside down.
2. Insert plastic washer onto threaded stud connected to leg.
3. Screw each leg into predrilled, threaded holes. Hand tighten.

\* Chair and leg shape/style may vary based on model ordered. Installation instructions remain the same.
