

Wine Rack Assembly Instructions

Check all parts and hardware before assembly. Work on a padded surface.

1. Check the parts

- 1** Side bottle rack frames
- 2** Bottom shelf / glass holder
- 3** Rear mesh panel
- 4** Front crossbar
- 5** Upper shelf
- 6** Upper suspension frames

2. Attach the bottom shelf

Fit the bottom shelf (2) between the lower ends of the side frames (1).

Keep the glass rails underneath the shelf, with their open ends facing forward.

Align the connections and secure with the correct supplied fasteners.

Wine Rack Assembly Instructions

Rear panel and front crossbar

3. Fit the rear mesh panel

Position the mesh panel (3) between the side frames at the back of the rack.

Align the connections and fasten the panel to both side frames.

4. Fit the front crossbar

Remove any preinstalled screws from the crossbar (4) and keep them together.

Fit the bar across the front of the side frames. Align and secure both ends.

Wine Rack Assembly Instructions

Upper shelf and suspension frames

5. Install the upper shelf

With help, place the upper shelf (5) on the side frames and align the connections.

Start all required fasteners by hand, then tighten evenly.

Check that the shelf sits evenly and the frame connections are secure.

6. Fit the upper suspension frames

With help, position the upper frames (6) above the upper shelf (5).

Align and secure the frame connections with the correct fasteners.

Keep the rack supported throughout assembly.
