Your furniture purchase is an investment. Here are a few tips to maximize the lifetime of your furniture with a minimum amount of effort. Properly caring for your furniture can help ensure that it looks great year after year.

To keep your upholstered seating looking like new, be sure to blot up all spills immediately. If you do spill something on the fabric and need to clean it, pretest a small section of the cloth with upholstery shampoo. (Test a section of the seat that is hidden or otherwise not noticeable.) If the fabric bleeds or fades, do not use the shampoo. To avoid staining, you may want to apply a spray-on stain guard to the seat. It will keep liquids from soaking in and staining the fabric. If you do shampoo your upholstery, follow the manufacturer's instructions on the upholstery cleaner. Use a clean, soft cloth to rub the shampoo into the fabric. Wipe with a damp towel and let the fabric dry completely. Please use a damp cloth to clean the metal frame of your stool.
